Council Meeting Date: July 7, 2014

Re: Oak Park Plat 5 - replat (Case # 14-92)

Documents Included With This Agenda Item

Council Memo, Resolution/Ordinance, Exhibits to Ordinance

Supporting documentation includes: Maps, Plat

Executive Summary

A request by A Civil Group (applicant) on behalf of Beacon Street Properties (owner) for approval of a twelve-lot replat of R-1 (One-Family Dwelling) zoned property, to be known as "Oak Park Plat 5". The 3.8-acre subject site is located at the southwest corner of the intersection of S. High Point Lane and Route K. (Case #14-92)

Discussion

The applicant is requesting to replat a portion of the previously approved Oak Park Plat 4 in order to facilitate the relocation of right of way (currently a portion of Nottoway Drive) to the north approximately 300 feet from its current location. The right of way to be relocated serves as an access point into the Oak Park Subdivision from High Point Lane and is sought to be vacated and relocated (Case # 14-91) due to a conflict between its location and a Boone Electric utility line located along High Point Lane. The relocation of the electric line is not possible due to costs so the vacation and relocation of the existing connection, not yet constructed, would alleviate the conflict.

The plat for Oak Park Plat 5 will dedicate the right of way to replace that which is sought to be vacated per Case #14-91. The dedication of the new right of way (Homestead Lane) will ensure access is maintained between the Oak Park Subdivision and High Point Lane, which is vital to provide safe and efficient access to the development. The new right of way will be approximately located where Lot 426 of Oak Park Plat 4 is currently located, and the vacated right of way will become part of platted lots within the subdivision. Additional right of way is to be dedicated at the intersection of Nottoway Drive and Pemberton Drive to accommodate the new dimensions of the roadway resulting from it no longer being connected directly to High Point. The total number of lots within the subdivision will not change as a result of the re-platting and relocation/vacation of the right of way.

Staff has reviewed the request and finds that it meets all technical requirements.

Locator and topographic maps and a reduced copy of the final plat is attached.
