Executive Summary

This resolution is a corrected version of resolution R 144-14 approved by the City Council on August 18, 2014. The resolution supports the application of JES Dev Co, Inc. to the Missouri Housing Development Commission (MHDC) for financial assistance in the form of tax credits through the Low Income Housing Tax Credit program to enable the construction of a multiple-family residential development for senior citizens known as Gentry Estates Phase II. The Council approved a similar resolution one year ago. JES was not successful in securing an award of tax credits from the MHDC in 2013 as the program is highly competitive. The corrected resolution refers to 48 units rather than 42 as in the previous resolution.

Discussion

Gentry Estates Phase II is located immediately east of the Gentry Estates Phase I building between Gentry Middle School and the Bethel Road and Nifong Boulevard intersection. Forty-eight apartment units for low-income senior citizens are planned. The Gentry Estates project helps satisfy an unmet need in decent affordable housing for senior citizens. The resolution of support will be included in the developer's application for MHDC assistance. The property is zoned for this purpose.

Fiscal Impact

Short-Term Impact: This request has no impact on the City budget. No City resources are being requested at this time.

Long-Term Impact: JES may be an applicant for City HOME funds to provide assistance for selected units within the Gentry Estates project. Such use of funds is anticipated in the City budget. HOME is a federal formula grant intended to support the production of affordable housing in the City.
