

APPENDIX A

Appendix A contains amenities, site maps, photos, and proposed improvements for each city-owned park and facility. The proposed improvements are taken from "Section I - Existing Facilities," Chapter 8. CIP projects that have secured funding are not listed in the proposed improvements. Estimated costs represent contracted work, unless otherwise indicated as force account labor (FAL). Site maps do not include proposed improvements.

Also included are properties that are currently under contract for acquisition by the Parks and Recreation Department. These properties are not yet included in the facility inventory or the Capital Improvement Program.
