II. Key Meeting Discussion Topics:

The group went over the comment forms and the Visions Summary Report from the April 4 presentation.

Greg Baka and Kevin Brown from the Transportation Committee joined the group to review the goals and strategies for non-motorized transportation since there was an overlap with the trails system covered by this committee. A new goal was established that will be used by both groups and strategies were revised.

New Trails Goal:

An extensive safe network of trails to accommodate a variety of users ranging from recreational to non-motorized travelers. This trails network may also include roadway and public transportation infrastructure to connect parks, neighborhoods, schools and businesses.

Goals and strategies for the other sub-topics were reviewed with minor changes made.
