### Class 1: *The basics...*

September 19, 9:00 am to noon

In this class we will introduce you to the many benefits of energy efficiency and why some energy efficiency projects can have dramatic savings. You will leave this class with a better ability to understand your utility bill and how to use the information to start your energy efficiency program.

### Class 2: *Biggest energy users...*

September 26, 9:00 am to noon

Become more familiar with the important characteristics of major energy using equipment in your facility: lighting, heating, air conditioning, ventilation, and hot water systems. By applying the latest energy efficiency technologies, you can determine the highest saving opportunities.

### Class 3: *Your game plan...*

October 3, 9:00 am to 1:00 pm (includes lunch)

This class will discuss how you can make an energy efficiency initiative happen at your facility. Strategies, techniques, and resources for developing your own energy efficiency program will be covered.
