

# Notice Regarding Residential Demolition Permits

July 8, 2016

Effective October 1, 2016 residential demolition permit applications will be required to be accompanied by a site plan which includes the following:

1. Drawn to an appropriate scale.
2. Property lines with dimensions.
3. Adjacent streets and easements.
4. Property address.
5. North arrow.
6. Outline of all structures and paved areas to remain or be demolished.
7. Distance between remaining buildings and between remaining buildings and property lines.

These requirements are intended to ensure that residential demolitions meet the requirements of R106.2 of the 2015 International Residential Code which states as follows:

**“Site plan or plot plan...**In the case of demolition, the site plan shall show construction to be demolished and the location and size of existing structures and construction that are to remain on the site or plot.”

It should also be noted that current City ordinance requires that all accessory structures and paved areas are to be removed at the time of demolition of the primary structure. If project conditions warrant the need for a variance from this requirement it should be discussed at the time of application.

Questions about this notice should be directed to Doug Kenney, Senior Building Inspector at (573) 874-7474.

Sincerely,

Shane S. Creech, P.E.

Building and Site Development Manager
