6. **Availability of Public Utility Services.** City and Developer acknowledge that the availability of public utility services of electricity, water, storm water and sanitary sewer capacity is critical to the Project. The Developer has submitted to the City the projected load and flow demands for public utility services to be generated by the Project at the end of the Construction Period as set forth in Exhibit E attached hereto. (the "**Utility Estimates**"). The City has reviewed the Utility Estimates and hereby commits that, in combination with the Developer commitments contained in this Agreement, the City will have adequate capacity to support the Project and the intended uses set forth herein by the end of the Construction Period and that if the Developer is not in default under this Agreement the City will not deny Developer the ability to connect to such essential public services to serve the Project at the end of the Construction Period. In no event shall the commitment of the City to reserve, construct or supply adequate capacity to support the Project extend beyond the Term of this Agreement, nor shall the City's commitment herein to provide public utility services be in excess of the Utility Estimates.
7. **Permit and Connection Fees.** In addition to the commitments of Developer contained herein, the Developer shall pay to the City, at the time and in the amount required by the Applicable Law, the standard connection and permit fees associated with connecting the Developer Tract to the utilities.

8. **No Conflicting Enactments.** During the Term the City will not impose on the Project or Developer Tract, whether by action of the City Council or otherwise, any Governmental Requirement (to the extent that the City has authority with respect to a Governmental Requirement), ordinance, resolution, rule, regulation, standard, directive, condition or other measure (each individually, a “**City Regulation**” and collectively the “**City Regulations**”) that reduces the assurances provided by this Agreement with respect to the availability of public utilities for the development, maintenance, and operation of the Project. Nothing contained herein shall prohibit the City from enacting a Governmental Requirement and imposing the same on the Project and Developer Tract for protection of the health, safety and welfare of the public in the same manner and to the same extent as imposed on the general public. During the Term, any change in the following shall not be effective as applied to the Developer Tract without the express written agreement of Developer:

- a. Change any land use designation or permitted use of the Development Tract existing as of the Effective Date of this Agreement which would prohibit or limit the use of the Developer Tract for the Project as described in this Agreement;
- b. Limit or control the availability of public utilities, services or facilities for the Project as described in this Agreement, unless such limitation is necessary to address health and safety issues created by the increase in capacity demanded by the Project which is in excess of the capacity contemplated herein;
- c. Apply to the Project any City Regulation otherwise allowed by this Agreement that is not uniformly applied to all similar types of development projects and project sites within the Downtown Community Improvement District boundaries; and
- d. Establish, enact, increase, or impose against the Project or Developer Tract any fees, taxes (including without limitation general, special and excise taxes), assessments or other monetary obligations other than those imposed and applied on all similar types of development projects and project sites within the Downtown Community Improvement District boundaries; provided however, if such additional fees, taxes, assessments or other monetary obligations related to the utility infrastructure improvements are imposed by City against the Developer Tract, the Developer shall have the right to claim a credit for any payments and construction enhancements made by Developer pursuant to this Agreement.

Nothing herein shall limit the City’s authority to enact ordinances, resolutions, or otherwise pass laws or promulgate rules or regulations with regard to any matter, so long as same does not have the effect of limiting construction of the Project on the Developer Tract within the Term in substantially the same manner as set forth in this Agreement. City expressly retains the right to control and determine all matters relating to the public streets and rights of way without any regard to the impact such decisions may have on the Project or Developer Tract, including but not limited to the granting of right of use permits and/or street closures adjacent to the Developer Tract

9. **Timing of Project Construction and Completion.** Subject to the following, the Developer shall endeavor in good faith and with reasonable diligence to proceed with and construct the Project during the Term and as described in this Agreement:
- a. It is the intent of the Developer to complete construction of the Project by August 31, 2015. The timing, order and rate of development shall be in Developer's sole discretion. It shall not be an event of default hereunder if the Project is not constructed during the Term; rather, this Agreement shall terminate in such case without any further action required by the Parties.
 - b. In no event shall a delay by Developer to complete construction of the Project according to the Project Schedule result in a refund or claim for refund of Developer's contribution for the construction of the Sanitary Sewer Improvements.
10. **Waiver.** Failure of any party to this Agreement to insist on the full performance of any of its provisions by the other Party shall not constitute a waiver of such performance unless the Party failing to insist on full performance of the provision declares in writing signed by it that it is waiving such performance. A waiver of any breach under this Agreement by any Party, unless otherwise expressly declared in writing, shall not be a continuing waiver or waiver of any subsequent breach of the same or other provision of this Agreement.
11. **Governing Law.** The laws of the State of Missouri (without regard to conflicts of law) shall govern the validity, construction, enforcement and interpretation of this Agreement.
12. **Headings.** All section headings in this Agreement are for the convenience of the reader only and are not intended, nor shall they be deemed, to define or limit the scope of any provision of this Agreement.

Agenda Item No:

To: City Council
From: City Manager and Staff

Council Meeting Date: March 12, 2014

Re: Authorizing a Development Agreement with Opus Development Company, LLC for Provision of Utility Services by the City.

EXECUTIVE SUMMARY:

Staff has prepared for Council consideration a development agreement with Opus Development Company, LLC which documents the terms under which the City will provide utility services to their residential housing structure project as shown on Exhibit B of the agreement.

DISCUSSION:

Council is aware of a number of projects in the central city (downtown) area of Columbia that have been put on hold due to the inability of many utility infrastructure systems to support additional capacity. Over the past few weeks, staff has been evaluating ways by which projects could be given a green light to proceed. The project proposed by Opus is in the conceptual design phase. Opus has not acquired the real estate for the project, and is seeking City's approval for the development agreement to ensure adequate utility infrastructure will be in place to serve the proposed project. Rezoning of the Opus tract is not required to construct the project.

Opus's project has been placed on hold due to inadequate sewer capacity to serve their housing development comprising 256 beds, as well as improvements needed for both stormwater and water systems. Following much discussion and negotiation, Opus has agreed to contribute 100% of the estimated \$200,000 needed to fund the reconstruction and/or rehabilitation of the connecting sanitary sewer main depicted in Exhibit D to the agreement. Additionally, Opus will agree to design, construct and replace the existing stormwater structure in a new location on their site to be approved by the City, and will pay 100% of the \$250,000 cost for the City to construct and dedicate the water service improvements depicted in Exhibit C of the agreement.

Opus's \$200,000 contribution for sanitary sewer improvements and \$250,000 contribution for the water system improvements to be constructed by the City are in addition to standard connection and permit fees required to connect their development tract to the utilities.

FISCAL IMPACT:

All improvements described will be paid for by the developer.

VISION IMPACT:

<http://www.gocolumbiamo.com/Council/Meetings/visionimpact.php>

6 Vision Statement: Downtown Columbia is a hip and vibrant district with a diversity of easily accessible businesses, residences, attractions and institutions; it is an exciting gathering place for all types of people.

6.2 Goal: Downtown Columbia will have a variety of safe housing options, including new and revitalized units, for all age groups and income levels with easy access to desirable amenities. Development and design guidelines will be instituted.
