**Re:** Appropriating FAA Grant Funds for Design Costs Related to the Reconstruction of Runway 13/31 and Taxiway B at the Columbia Regional Airport

## Documents Included With This Agenda Item

Council memo, Resolution/Ordinance

**Supporting documentation includes:** None

## Executive Summary

Appropriating grant funds from the Federal Aviation Administration (FAA) for costs relating to the design phase of the reconstruction of Runway 13/31 (Taxiway Alpha to Runway 31 threshold) and the reconstruction/realignment of Taxiway Bravo (Taxiway Alpha to Runway 31) Phase I, at the Columbia Regional Airport.

## Discussion

On December 16, 2013, Council authorized an agreement with Burns & McDonnell Engineering Company, Inc for design services related to the reconstruction of Runway 13-31 and Taxiway B at its intersection with Runway 20, at the Columbia Regional Airport. At the time this agreement was approved, the FAA had committed to a grant offer of \$395,307 for the design services; however, the grant agreement wouldn't be authorized until June of 2014. Funds were transferred from another airport capital improvement project to the Runway 13-31 project to allow Burns & McDonnell to begin the design services. The grant agreement with the FAA has been now been executed and the funds are being appropriated to the project.

A public hearing for this project will be scheduled in early 2015 once the design phase is nearly complete, with construction expected to begin in early summer of 2015. The total project is estimated to cost \$3.4M.

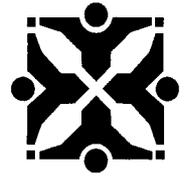

## Fiscal Impact

**Short-Term Impact:** \$439,230 is being appropriated to this project with 90%, or \$395,307, to be reimbursed by the FAA. The City's 10% local match is \$43,923, and will be paid from Transportation Sales Tax.

**Long-Term Impact:** The total project cost with design and construction is estimated at \$3.4M. A second grant agreement from the FAA for the construction phase is expected in 2015.
