**Re:** Public Hearing - Worley and Clinkscales Intersection Improvements

## Documents Included With This Agenda Item

Council memo, Resolution/Ordinance

**Supporting documentation includes:** Maps, Plats and Plans, Correspondence from the Public, Contact Log

## Executive Summary

Public Hearing for the construction of improvements to the intersection of Worley Street and Clinkscales Road, as shown on the attached location map. An interested parties (IP) meeting was held February 5, 2015 and the construction concept cost estimate for the project is approximately \$146,000.

## Discussion

The Worley Street and Clinkscales Road intersection improvement project consists of the installation of crosswalks on all four legs of the intersection, and new signal equipment including audible pedestrian signals with countdown timers and flashing yellow left turn arrows on Worley Street. Reconstruction of the two sidewalk ramps on the south side will be necessary to meet current ADA regulations. It is expected that permanent easements and temporary construction easements will need to be acquired from two property owners. An IP meeting was held February 5, 2015; four (4) people signed in and two (2) comments were received.

The project will connect the recently constructed sidewalk projects along Worley Street and provide ADA accessible connectivity on Worley Street, from West Boulevard to Bernadette Drive. The Worley Street Sidewalk Phase 1 project, from Clinkscales eastward to the Columbia/Boone County Public Health and Human Services building, was completed in 2011. The Worley Street Sidewalk Phase 2 project, from Clinkscales westward to Bernadette, was completed in 2014.

## Fiscal Impact

**Short-Term Impact:** The construction concept cost estimate for this project is \$146,000 and will be funded by Community Development Block Grant funds.

**Long-Term Impact:** The additional cost of maintenance for this project is negligible compared to the cost of maintenance for the existing intersection and equipment.
