

# City of Columbia

701 East Broadway, Columbia, Missouri 65201

**Agenda Item Number:** REP 65-15

**Department Source:** City Manager

**To:** City Council

**From:** City Manager & Staff

**Council Meeting Date:** 6/1/2015

**Re:** Report-Creasy Springs Road

## Documents Included With This Agenda Item

**Supporting documentation includes:** City of Columbia Fatality Accidents Since 2013, Creasy Springs Rd Accidents

## Executive Summary

Per the request of Mayor McDavid, the following report summarizes and compares current Creasy Springs Road traffic volume to that of other city roads; reviews Creasy Springs Road accident data in relation to overall City of Columbia accident data; and demonstrates the intent of the City's Public Works and Police Departments to collaborate in the development of Creasy Springs Road safety countermeasures as needed.

## Discussion

### I. Creasy Springs Traffic Volume Relative to Other Columbia Roads

Currently, there is not recent traffic count data for Creasy Springs Road near Prairieview Drive. The most recent 2009 traffic count for Creasy Springs is for the road segment approximately 500 ft. north of Proctor drive, which showed an average daily traffic volume (AADT) of 2,593 vehicles per day. A 2013 count along Creasy Springs Road near Remington was 3,243 vehicles per day. Based on this information, the estimated average daily traffic volume for Creasy Springs near Prairieview Drive is approximately 2,500 to 3,000 vehicles per day.

Estimated Creasy Springs Road traffic volume for this area is less than the estimated traffic volume of a number of road projects included on the Capital Improvement Project (CIP) ballot. The existing traffic volume for Nifong is approximately 20,000 vehicles per day; the existing AADT for Forum is approximately 15,000; the existing traffic volume for Garth is approximately 6,700 vehicles per day; both Walnut and Ballenger have an existing AADT of approximately 6,000; and Range Line Street's traffic volume is about 4,400 vehicles per day.

### II. Creasy Springs Road Accident Data Relative to Overall City Accident Data

Over the past 2 years, from 2013-15, there have been 17 car accidents in the City of Columbia that resulted in fatalities (see City of Columbia Fatality Accidents since 2013).

# City of Columbia

701 East Broadway, Columbia, Missouri 65201

From 2013-15, there has been one car accident resulting in fatalities on Creasy Springs Road, near Pairieview Drive, which occurred on May 3, 2015. Speed and alcohol were contributing factors in the crash<sup>1</sup>. In all, from 2013-15, there have been 2 accidents at Creasy Springs Road near Pairieview Drive (including the May 3 incident). Both accidents resulted in injuries (see Creasy Springs Rd Accidents; there was one accident in 2013-14-- a call, a report and injury and one accident in 2014-15--a call, a report, injury and fatality).

Once the final police report is issued for the May 3 car accident near Creasy Springs Road and Prairieview Drive, the City's Public Works Department will collaborate with the Police Department to implement safety countermeasures as needed.
