## Executive Summary

Staff is proposing a Downtown Employee Permit Pilot program that will increase demand for 10-hour parking meters. Approximately 200 permits will be sold, allowing individuals to park in 10-hour zones for \$35/month. To accomplish this, staff is proposing to amend Chapter 14 of the City Code to modify parking zones in the downtown area.

## Discussion

A proposed Downtown Employee Permit Pilot program would allow individuals to purchase a \$35/month permit to park at 10-hour meters. The attached map shows locations where 10-hour parking spaces will be added and removed. Meters would be added to certain locations of low occupancy, or free parking, to expand the total available 10-hour metered spaces from 254 to 313. Additionally, 14 10-hour meters would be changed to 2-hour meters in front of Lee Elementary School to create turnover for parents needing to visit the school.

The proposed ordinance amendment to Chapter 14 also corrects some historical changes made such as descriptions of municipal lots that were converted to garages, street name changes, and payment methods for parking meters other than coin.

## Fiscal Impact

**Short-Term Impact:** The only costs related to this amendment is for installation of 33 new 10-hour meters to be installed on Park Avenue for approximately \$20,000, to be paid from the parking utility.  
**Long-Term Impact:** None
