From: City Manager & Staff

Council Meeting Date: 7/20/2015

Re: Transferring Funds for Relocation of Utilities Relating to the Scott Boulevard Phase III Project

Documents Included With This Agenda Item

Council memo, Resolution/Ordinance

Supporting documentation includes: Map

Executive Summary

Authorizing a transfer of funds from the Public Works department Scott Boulevard Phase III project account to the Water & Light department project account for costs relating to the relocation of utilities as part of the Scott Boulevard Phase III (Vawter School Road to Route KK) improvement project.

Discussion

Scott Boulevard, from Vawter School Road to Route KK, is identified as a minor arterial street on the Major Roadway Plan. The length of this section is approximately 9,800 feet. The existing roadway within the project limits is comprised of an unimproved two-lane section with no shoulders and with no accommodation for bicycles. About 1,800 linear feet of concrete sidewalks have been built along the existing roadway by Copperstone and Thornbrook subdivisions. The roadway crosses Mill Creek, and the project includes replacement of the existing bridge. The bridge will provide space alongside the creek for the future Mill Creek Trail and will include connections from the sidewalks on Scott Boulevard to the trail.

The total Right of Way width required for the recommended typical section is 76 feet. The proposed typical section roadway template for Scott Boulevard Phase III causes impacts to the existing electrical transmission line causing the need for utility modifications and adjustments. The transmission line is in a private easement and therefore, the Water and Light Department is eligible for reimbursement by the project to pay for the impacts to the transmission line. The estimated cost is \$500,000.

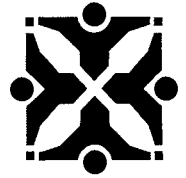

Fiscal Impact

Short-Term Impact: Transferring \$500,000 from the Public Works department project account to the Water & Light project account for the relocation of utilities relating to the Scott Boulevard Phase III improvement project.

Long-Term Impact: Route maintenance costs as needed.
