Agenda - Review Feedback on Governance Performance and Outcome Measures

Attendees

Khesha Duncan

Lee Henson

Phil Peters

Jan Weaver

Meeting called to order 9:00 am

The subcommittee reviewed the minutes from the previous night's meeting on Governance.

There was consensus that the main concerns of the stakeholders were that there was still no effort to investigate increasing council representation, or council compensation. There was also the perception that customer service and coordination still needed work.

After further discussion of the minutes the commissioners agreed to review the notes and make specific recommendations about performance measures, outcome measures and implementation steps for the next Vision Commission meeting.

Meeting adjourned 10:00 am
