December 15, 2015

Re: Street, Storm Sewer and Sanitary Specifications and Standards
Addendum #3 Changes

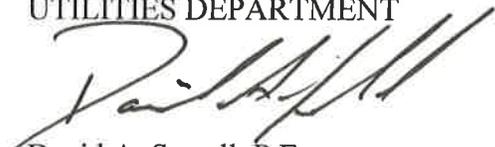

To Whom it May Concern:

The City of Columbia adopted new Street, Storm Sewer, and Sanitary Sewer Specifications and Standards on January 1, 2012. Since then, House Bill 1867 was signed into law by Governor Nixon, this law requires all sanitary sewer laterals have a tracer wire installed beginning January 1, 2016. This third addendum includes specifications and standard details for the required tracer wire. In accordance with the state law, these requirements will take effect on January 1, 2016. These changes will be posted on the City's website:

http://www.gocolumbiamo.com/PublicWorks/Engineering/san_sewer_toc.php

Thank you for helping us make continual improvements to our infrastructure as we strive to provide the best service to the citizens of Columbia.

Sincerely,
UTILITIES DEPARTMENT

David A. Sorrell, P.E.
Assistant Director

CC: Tad Johnsen, Director, City Utilities
Dave Nichols, P.E., Director, Public Works
Shane Creech, P.E., Engineering Manager, Building & Site Development
John D. Glascock, P.E., Deputy City Manager
