CLOTH COVERS

(For all construction projects and all events over 48 hours)

GENERAL INFORMATION:

1. A deposit of fifteen dollars (\$15.00) is required for each meter cover. The amount of the deposit will be applied to the total bill when the meter cover(s) are returned and the account settled. The deposit will not be credited if the meter cover is not returned, e.g. lost, stolen or for any reason, to the Public Works Department.
2. There is a charge of eight dollars (\$8.00) for a single meter cover or sixteen dollars (\$16.00) for a double meter cover PER DAY (Sundays and municipal holidays excluded). There is a one-day minimum charge. Meter covers must be padlocked to the meter by the renter. If the meter cover is lost or stolen, report it immediately to the Public Works Department at 573-874-7250, as the \$8.00/\$16.00 per day charge continues until the cover is returned or the loss or theft is reported. If replacement meter cover(s) are required, an additional \$15.00 deposit per cover is assessed. A monthly rate of one hundred fifty dollars (\$150.00) is available. An annual meter hood rate of one thousand six hundred dollars (\$1,600.00) is also available, if paid in advance.
3. YOU MUST COME TO THE PUBLIC WORKS DEPARTMENT OFFICE AT 701 E. BROADWAY, 3RD FLOOR, BY NOON OF THE NEXT CITY BUSINESS DAY TO RETURN THE METER COVER(S) AND PAY YOUR RENTAL FEE. OTHERWISE, YOU WILL BE CHARGED FOR ANOTHER FULL DAY'S USE. PARKING ENFORCEMENT CANNOT ACCEPT METER COVER DEPOSITS OR RENTAL FEES.
5. Parking is enforced from 8:00 AM through 6:00 PM (Monday - Saturday) except for City-recognized holidays. Renter will be charged for EVERY APPLICABLE DAY THAT THE COVER(S) ARE OUT, not just the days that the renter plans to (or actually did) use the covers.
6. Covers need to be attached to meter at least four (4) hours in advance for Public Works to enforce. Please contact 573-874-7674 to advise when covers are in place. Office hours are 8:00 AM to 6:00 PM Monday thru Saturday. Please leave a voice mail message.

Attention Contractors: These covers are only to be utilized by construction vehicles, with legitimate requirements for continuous access to the construction site. This is defined as a commercial vehicle with permanent signs identifying the construction company, or a truck containing tools or materials, which is obviously being utilized throughout the work day. A passenger vehicle (sedan) or empty pickup truck will not be considered as one requiring construction vehicle parking privileges. Any vehicle, other than those defined in this manner, will be subject to penalty for parking in a no parking zone even if it belongs to a member of the construction crew.
