

**Visioning
Meeting #2
February 20, 2007**

Minutes

Introductions

Recap of previous meeting and the subgroup divisions/topic areas (Investments, Mobility, Housing)

Facilitator Baumgartner requested that the group evaluate “goals” from prior meeting and answer two questions: “Are group ‘goals’ based on ‘Big Idea’ themes?” and “Are the goals ones the sub-groups are comfortable with going forward?”

Groups broke into individual subgroups to address the above.

Following time spent on evaluating goals, the group briefly reformed to discuss what the groups generally considers to be the “downtown boundaries.” It was generally agreed that these boundaries, while not “set in stone,” would essentially be Stephens College to the east, University of Missouri – Columbia to the south, Columbia College to the north and the Daniel Boone Regional Library to the west.

Groups then returned to sub-groups to address strategies to achieve goals.
