

**WATERS-MOSS MEMORIAL WILDLIFE AREA  
COMMENTS FROM JANUARY 31, 2013 INTERESTED PARTIES MEETING  
AND FEBRUARY 2013 ON-LINE SURVEY**

**Please comment on what you like about the proposed potential improvements. Please be concise.**

- I like the proposed use of this site for community recreation and transferring the OSHER activities to this area.
- The buildings appear to offer a lot of activities, and take advantage of existing buildings, maybe offer a Dept. of Conservation theme with deer and other animals per décor, area, etc.
- I like the proximity to my home as well as the possible availability of youth oriented activities in the future. It looks like the project will pay for itself in rent savings vs the Stephens Lake Activity Building.
- Nice wooded site with lots of space and parking.
- Don't take out any trees. Keep the shelter and playground close to office.
- Plan looks good.

**What would you change about the proposed potential improvements? Please be concise.**

- This is not a proposed change but a question. How will the Waters-Moss area be connected to the Hinkson Creek Trail? This has not been shown on the proposed developments to the Waters-Moss Property.
- It really seems fully thought out, cannot think of anything else other than maybe a single track mountain bike trail.
- I wouldn't object to a single track bike trail!
- Please consider re-configuring the restrooms in the shop building to put the entrance off the North hallway, rather than from the lobby.
- Needs more parking around office/Osher area. Not sure you are proposing enough.
- Make sure a bus can pull in and out especially if there's cars in the lot.
