Re: In the Matter of Mark W. Adair
Shooting Investigation

Gentlemen,

I was recently appointed as Special Prosecuting Attorney to review the facts and circumstances surrounding the shooting death of Mark W. Adair who died as a result of gunshot wounds sustained on Wednesday, April 15, 2015, at the Hitt Street Parking Garage located on the north side of the University of Missouri Campus in Columbia, Missouri. Two law enforcement officers were involved in this incident, to-wit, Officer Zachary Chinaea of the University of Missouri Police Department, and Officer Timothy Giger of the Columbia, Missouri Police Department. The purpose of my review was to determine whether there was a basis to file criminal charges in connection with the death of Mark W. Adair. As a result of my review, I have determined there is no basis for the filing of criminal charges against Officer Chinaea or Officer Giger. My findings and conclusions are as follows:

I. Fact Summary

Prior to 10:00 p.m. on April 15, 2015, Mark W. Adair was a parolee recently released from the Missouri Department of Corrections after serving time for the crime of rape. He was required to enter a halfway house residential program at Reality House following his release from prison as a condition of his parole and was housed at the facility on East Prathersville Road in

July 31, 2015

Page -2-

Columbia. Adair left Reality House on April 14, 2015, without telling anyone and did not return. This was a violation of his parole and a warrant was issued for his arrest for absconding from parole.

Early in the day on April 15, 2015, Adair was involved in an attempted robbery and sexual assault. He was reported to be armed and dangerous. The Columbia Police Department disseminated this information to local law enforcement agencies, including the University of Missouri Police Department. Law enforcement officers began to actively search for Adair.

Officer Zachary A. China was on regular patrol for the University of Missouri Police Department at approximately 10:45 p.m. on April 15, 2015. Information was received that Adair had been observed in the downtown area. China then decided to check the East Campus while en route to downtown. While approaching the Hitt Street Garage location in his patrol car, Officer China was flagged down by two persons who told him they observed a person matching the description of Adair approaching the Hitt Street Garage. At the time, it appears Officer China did not know the two citizens were Columbia Police Department Undercover Officers, Timothy Giger and Neal Sedgwick. China then observed the person matching the description of Adair entering the north entrance of the garage. Officer China then drove to the garage facility to locate and question Adair. Officers Giger and Sedgwick followed on foot.

When he entered the garage in his vehicle, Officer China observed Adair speaking to three females who were attempting to enter their car to leave the garage. The females later gave statements that Adair had approached them and made comments that made them uncomfortable and that they were glad to see a police car approaching. China pulled his vehicle behind the car belonging to one of the females and activated his emergency lights. He then exited his vehicle and took a few steps toward the front of his vehicle telling Adair that he needed to speak with him. Before Officer China completed his sentence, Adair had moved quickly around the front of the patrol car and approached China while drawing what appeared to be a large caliber handgun from his right front pants pocket and pointing it directly at China. A struggle immediately ensued and Officer China was able to block the weapon and redirect it away from himself, but was knocked to the ground by Adair who got on top of China and attempted to reach China's duty weapon and OC Spray. During the struggle, China and Adair wrestled for control of the weapon and shots were discharged. It is unclear whether any of the initial shots came from one of the weapons involved in the struggle between Adair and China. Officer China indicates in his statement that he believes he was able to pull the trigger on one of the weapons, but also believed the shots were discharged into the garage ceiling.

Unknown to Officer China, the undercover officers, Giger and Sedgwick, had reached the location of the struggle just as it started. They observed the struggle with Adair on top of China, and from earlier police reports, knew Adair to be a dangerous felon who was armed and had an outstanding felony warrant. Based on these circumstances, and believing China to be in imminent peril, Officer Giger fired two shots which struck Adair in the back. Despite being shot, Adair continued fighting with China from his position on top of China. Officer Giger then moved closer to the struggle and fired another shot, which hit Adair in the left eye. Officer

July 31, 2015

Page -3-

China was then able to push Adair off of him and fired additional shots into the chest and abdomen of Adair. During the struggle with Adair, Officer China suffered what appeared to be a gunshot wound to his hand removing the tip of his right middle finger. Officer Sedgwick did not fire his weapon during the incident.

II. Materials Reviewed

During the course of my review of this incident, the following materials were examined and viewed prior to making a final determination:

1. Investigative reports, diagrams and supporting documents submitted by the Missouri State Highway Patrol;
2. Multiple crime scene photographs and video recordings taken and submitted by the Missouri State Highway Patrol;
3. Certified Firearms Lab Report of the officers' weapons conducted by the Missouri State Highway Patrol Forensic Laboratory;
4. Body camera video of the incident taken from Officer Zachary A. China's body camera;
5. Written summaries and recorded statements made by the following persons:
 - (a) Officer Zachary A. China;
 - (b) Officer Timothy Giger;
 - (c) Officer Neal Sedgwick;
 - (d) Civilian witness Katherine Loher;
 - (e) Civilian witness Nicole Caldwell;
 - (f) Civilian witness Jaelyn Mock;
 - (g) Reality House Case Mgr., John Barrow;
 - (h) Mitchell Porter (not an eyewitness to the incident).
6. Post Mortem Examination of Mark W. Adair performed by Boone County Medical Examiner, Dr. Carl Christopher Stacy, MD, and personal interview of Dr. Stacy;
7. Post Mortem Toxicology Report by Dr. Christopher Long, MD;
8. Investigative Reports submitted by the Columbia, Missouri Police Department;
9. Investigative Reports submitted by the University of Missouri Police Department.

Many of the reports had multiple parts and attached information that was not relevant to the issues at hand.

July 31, 2015

Page -4-

III. Findings and Conclusion

The credible evidence submitted with respect to the death of Mark W. Adair clearly indicates the following:

1. Prior to the shooting incident, Mark Adair was known by Officers China and Giger to be a dangerous felon who had been recently released from the Missouri Department of Corrections after serving a sentence for rape;
2. Prior to the shooting incident, Mark Adair was known to have absconded from Reality House on April 14, 2015, which was a violation of his parole and which resulted in a warrant being issued for his arrest;
3. Prior to the shooting incident, Mark Adair was known to have committed one or more dangerous felonies, including attempted robbery and sexual assault on April 15, 2015, and that he was armed;
4. Prior to the shooting incident, information had been disseminated to Columbia law enforcement officers, including Officers China and Giger, that Mark Adair was being sought in connection with the above-described felony matters;
5. At the time Officer China made initial contact with Mark Adair, Adair had approached three females trying to enter their vehicle located in the Hitt Street Garage at approximately 11:00 p.m.;
6. As Officer China attempted to speak to Adair, he approached China in a threatening manner and drew what appeared to be a large caliber handgun, pointing it at the officer. Officer China had not drawn his weapon at this time;
7. Officer China was able to block Adair's weapon and a physical struggle ensued with Adair ending up on top of China who had been knocked to the ground by Adair;
8. When Officers Giger and Sedgwick arrived at the scene and witnessed the struggle, they believed Officer China was in imminent danger of serious harm or death;
9. Officer Giger fired two shots into the back of Adair in an effort to protect Officer China from serious harm or death. These two shots did not deter Adair from continuing the struggle for Officer China's weapon and Giger fired a third shot, striking Adair in the area of the left eye.
10. After Giger's third shot, Officer China was able to push Adair off of him and he fired additional shots into Adair's chest and abdomen until he felt the threat had ended. At the time, Officer China was not aware of the presence of Officers Giger and Sedgwick, nor does it appear

July 31, 2015

Page -5-

that Chinaea was aware that Giger had shot Adair. Chinaea suffered injury to his hand from a gunshot wound during the struggle with Adair. Adair died as a result of gunshot wounds.

11. All of the findings set out above are supported by the statements of eyewitnesses, the physical evidence collected, and the body camera video recorded by Officer Chinaea's body camera which was activated during the entire incident.

Self-Defense/Defense of Others:

It is a well-established principle of law that any person may use deadly force if he reasonably believes that such deadly force is necessary to protect himself, or another, against death, serious physical injury or any forcible felony. This is set out in Section 563.031.2 (1) RSMo.

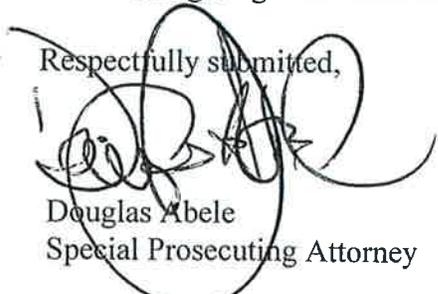

Law Enforcement Officer's Use of Force in Making an Arrest:

In addition to Section 563.031, RSMo., Missouri law specifically provides, in Section 563.046.3 (2), RSMo., that a law enforcement officer may use deadly force in effecting an arrest or in preventing an escape from custody when he reasonably believes the use of deadly force is immediately necessary to effect the arrest and also reasonably believes that the person to be arrested:

- (a) has committed or attempted to commit a felony; or
- (b) is attempting to escape by use of a deadly weapon; or
- (c) may otherwise endanger life or inflict serious physical injury unless arrested without delay.

The facts in this matter, as supported by the credible evidence above described, indicate that both Officer Chinaea and Officer Giger were justified under the law in the use of deadly force as allowed under Sections 563.031 and 563.046, RSMo. It is, therefore, my conclusion and determination that there is no basis for the filing of criminal charges against either officer.

Respectfully submitted,

Douglas Abele

Special Prosecuting Attorney

Missouri State Highway Patrol
Supplemental Report
Incident # 150216523

SUPPLEMENT #24 – INVESTIGATION SUMMARY

DATE OF REPORT: 05/12/2015

1. The suspect in this investigation is:
 - a. Mark W. Adair, age 51, of Columbia, Missouri.
2. The victim of this investigation is:
 - a. Officer Zachary A. China, age 25, of Columbia, Missouri.
3. The subjects of this investigation are:
 - a. Officer Zachary A. China, of the University of Missouri Police Department
 - b. Officer Timothy J. Giger, of the Columbia Police Department.
4. The violations of Missouri State Law discovered during this investigation are:
 - a. Assault/Attempt Assault 1st Degree on Law Enforcement Officer, RSMo. 565.081
 - b. Armed Criminal Action, RSMo. 571.015
5. The witnesses in the investigation are:
 - a. Officer Neal Sedgwick, Columbia Police Department
 - b. Officer Ryan Lawzano, University of Missouri Police Department
 - c. Jaclyn R. Mock, age 19, Aurora, Colorado
 - d. Katherine E. Loher, age 20, Shrewsbury, Missouri
 - e. Nicole E. Caldwell, age 20, O'Fallon, Missouri
6. The physical evidence that was seized during this investigation is:
 - a. Umarex, CO-2 Pistol,
 - b. Smith & Wesson, 9mm semi automatic pistol with magazines
 - c. Smith & Wesson, .40 caliber semi automatic pistol with magazine
 - d. Spent and live cartridges
 - e. Gunshot residue kits
 - f. Kitchen knife
 - g. DNA blood swabs
 - h. Photographs
 - i. Audio and Video recordings
 - j. Clothing
 - k. Two sets of handcuffs

- l. Hair samples
- m. Blood samples
- n. Human fingernail clippings
- o. Buccal Swabs
- p. bullet fragments
- q. Plastic body bag

7. A synopsis of this investigation is as follows: On Thursday, April 16, 2015, I began an investigation into the shooting of Mark W. Adair, which occurred at approximately 2257 hours, at the Hitt Street Parking Garage, on the campus of the University of Missouri, Columbia.

8. While attempting to identify Mark W. Adair, the suspect of this investigation, Officer Zachary Chinae of the University of Missouri Police, was assaulted by Adair, inside the parking garage. At the time of this assault, Adair was wanted by the Missouri Department of Corrections, as a parole absconder and the suspect of several violent sexual crimes in Boone County, Missouri.

9. During the aforementioned incident and subsequent assault of Officer Chinae, Adair was shot by Officer Chinae and Officer Timothy Giger of the Columbia Police Department, resulting in Adair's death.

10. When Officer Chinae exited his patrol vehicle to speak with Mr. Adair, Adair produced a pistol with his right hand and physically attacked Chinae. While struggling for control of the pistol, Adair and Chinae fell to the ground and Adair landed on top of Officer Chinae. During the struggle for Adair's handgun, Officer Giger and Officer Neal Sedgwick of the Columbia Police Department came to Chinae's aid.

11. Giger stated that he believed Chinae was in immediate, life threatening danger, so Giger fired his weapon striking Adair multiple times. Unbeknownst to Chinae, Officer Giger fired his weapon as Chinae simultaneously gained control of Adair's handgun. Chinae made an attempt to shoot Mark Adair with Adair's own pistol, when Giger fired his first two shots. It should be known, that Adair removed Officer Chinae's pepper spray from his duty holster during the physical altercation, but was unable to dispense the chemical weapon because of Chinae's defense of that deployment.

12. According to Officer Chinae, he was able to roll Mark Adair off of himself, and then draw and fire his service pistol striking Adair multiple times.

13. The evidence collected at the crime scene, autopsy results, and the statements provided by the witnesses all corroborate the description of the events listed above.

14. Due to the suspect's death, no charges will be sought.

15. This case is closed for Patrol purposes.

Reports:

Missouri State Highway Patrol
General Report
Incident # 150216523

ORIGINAL REPORT

DATE OF REPORT: 04/16/2015

1. On Wednesday, April 15, 2015, at approximately 2257 hours, Missouri University Police Officer Zachary Chinaea and Columbia Police Officer Timothy Giger were involved in the apprehension and shooting of Mark W. Adair, of Columbia, Missouri. The incident took place inside the Hitt Street Parking Garage, at the University of Missouri, in Columbia. Adair is the suspect of this investigation and was currently a violent parole absconder from the Missouri Department of Corrections, and a suspect in an armed robbery and sexual assault in Boone County. Adair was killed during the shooting, which occurred after he (Adair) displayed a handgun, and armed with a kitchen knife, assaulted Officer Chinaea. At the request of the University of Missouri Police Department, the Troop F Investigative Unit of the Division of Drug and Crime Control began an investigation into the shooting.
2. At approximately 2320 hours, I was contacted by the Troop F Communications Staff regarding an officer involved shooting, which occurred earlier in the evening on the campus of the University of Missouri. I was informed that two officers were involved in the apprehension of a violent absconder, who was subsequently shot and killed during the apprehension attempt. I agreed to assist in the investigation, and made arrangements to leave immediately. I made contact with the following members of the Division of Drug and Crime Control: Lieutenant Ethan Ahern, Sergeant Matt Koch, Corporal Marcus Reynolds and Trooper Darrin Haslag. They were briefed about the incident and responded to the Hitt Street garage to assist in the investigation.
3. During my response to the scene, I contacted the Troop F Headquarters and requested the assistance of the Missouri State Highway Patrol's Major Crash Team. I asked if the crash team would respond and diagram the crime scene. Sergeants Paul Meyers and Paul Kempke agreed to assist, and responded as well.
4. Upon my arrival at the scene at approximately 0035 hours, Trooper Haslag and I met with Sergeant Koch and Corporal Reynolds. They briefed us about the nature of the incident, and I conducted an area canvass. I observed Officer Chinaea's white Ford Explorer, bearing Missouri registration, MZU-0560; it was parked in the middle of the parking garage row, in front of a red 2002 Ford Escape. I also saw the body of Mark W. Adair, who was lying beside the driver's front corner of Officer Chinaea's vehicle. Adair was covered by a yellow blanket. Lying to the left of Adair, was what appeared to be a can of pepper spray, a large kitchen knife, and a black handgun.
5. I contacted Lieutenant Ahern by phone at approximately 0045 hours; he was currently at the Columbia Police Department making arrangements to secure Officer Giger's clothing and firearm. He was briefed about our arrival and the beginning of our investigation.

6. All further information regarding this investigation will be submitted on a supplemental report. This case remains active.

Jason P. Clark, Sergeant
Division of Drug and Crime Control

Dear Colonel Replogle,

One year ahead

On April 15, 2016 one of our University of Missouri Police Officers and a Columbia Police Officer were involved in a shooting at the Hitt Street Parking garage here on the University campus. The suspect is deceased. Please consider this letter as our request for the Missouri State Highway Patrol to conduct an investigation into the shooting.

If you need anything else, please let me know.

R. Douglas Schwandt

Dear Assistant Chief Gordon:

Your request for an investigation into the officer-involved shooting that occurred on April 15, 2015, in Columbia, at the Hitt Street parking garage, on the University campus is approved. It is my understanding that Sergeant Jason Clark, of the Division of Drug and Crime Control, is currently conducting this investigation. It is also my understanding that your request for assistance is in anticipation of criminal charges being filed if warranted.

It is important that you be aware of Missouri statutes regarding the disclosure of investigative reports. Under certain circumstances, we are required by law to release certain investigative reports upon request. The most likely scenario under which this would occur involves investigations in which no criminal charges are filed. We have been advised that under these circumstances our investigative reports become open records for dissemination.

Hopefully, this matter can be resolved quickly and to your satisfaction. If the Patrol can be of future assistance in this or any other matter, please feel free to contact my office.

Sincerely,

RONALD K. REPLOGLE, Colonel
Superintendent

Supplemental Report

Incident # 150216523

SUPPLEMENT #1 - CRIME SCENE PHOTOGRAPHS

DATE OF REPORT: 04/16/2015

1. On Wednesday, April 15, 2015, at about 2327 hours, Sergeant J. P. Clark notified me of an officer involved shooting incident involving a Missouri University Police Officer; a Columbia, Missouri, Police Officer; and a violent parole absconder from the Missouri Department of Corrections who was also a suspect in an armed robbery and sexual assault in Boone County. The shooting incident occurred inside the Hitt Street Parking Garage on the north side of Missouri University in downtown Columbia, Missouri. On Thursday, April 16, 2015, at about 0005 hours, I arrived at the scene. At about 0030 hours, using my patrol issued Nikon D3200 digital camera, I captured photographs at the scene of the officer involved shooting. The scene was marked by yellow crime scene tape that blocked the driving lane, the parking spaces, and the stairwell entrance to the parking garage. The following is a list and brief description of each photograph:

- DSC_001: wide angle photo of the scene from the south side
- DSC_002: wide angle photo of the scene from the southwest side
- DSC_003: wide angle photo of the scene from the west side
- DSC_004: wide angle photo of the scene from the northwest side
- DSC_005: wide angle photo of the scene from the north side
- DSC_006: wide angle photo of the scene from the northeast side
- DSC_007: wide angle photo of the scene from the east side
- DSC_008: wide angle photo of the scene from the southeast side
- DSC_009: wide angle photo from the driver's side front of Witness Caldwell's vehicle
- DSC_010: mid-range photo of the scene from the southwest side
- DSC_011: mid-range photo of the scene from the west side
- DSC_012: mid-range photo of the scene from the north side
- DSC_013: mid-range photo of the scene from the northeast side
- DSC_014: mid-range photo of the scene from the northwest side with Witness Caldwell's red SUV in view
- DSC_015: mid-range photo of the front of the MUPD Patrol Vehicle with license plate MZU-0560 with the covered deceased body in view
- DSC_016: wide angle photo of the Stair 2 Level 2 sign and door way in the Hitt Street Parking Garage
- DSC_017: wide angle photo of a fired bullet and two weapons lying near the covered deceased's body
- DSC_018: mid-range photo of the fired bullet

Missouri State Highway Patrol
Supplemental Report
Incident # 150216523

SUPPLEMENT #2 - CRIME SCENE
DATE OF REPORT: 04/16/2015

1. On April 16, 2015, at approximately 0102 hours, I arrived at the scene of an officer involved shooting located in the Hitt Street Parking Garage, at 10th and Hitt Street, in Columbia, Missouri. Once there, I observed a large portion of the second level of the garage was taped off by crime scene perimeter tape. Inside the crime scene, I observed a University of Missouri Police Department patrol vehicle, license number MZU-0560, parked at an odd angle in the driving lane of the garage, facing away from my view. Near the driver's door of the patrol vehicle, I observed the handcuffed body of Mark Adair, lying face down on the ground. Near Adair was a black handgun, which appeared to be broken, a large knife, and a can of OC aerosol, which I recognized as the kind commonly carried by law enforcement. Scattered around and under the driver's side of the patrol vehicle, and near the body of Adair, were several shell casings. Additionally, I observed a large fragment of a projectile lying on the pavement. Along with the shell casings and projectile fragment were the backing of a pin, which I recognized as those commonly used to secure pins to a police uniform, and a small ornamental badge for the Colt brand of firearms. A closer look at the University of Missouri Police patrol vehicle revealed blood splatter on the fender and driver's door.

2. Near the vehicle entrance to the garage, I observed another University of Missouri Patrol Vehicle, license number MZU-0565, parked in the entry way. Closer examination of this patrol vehicle revealed blood on the hood, confined mainly to the driver's side, and blood on the ground, next to the rear, driver's side door. Additional blood was found on the interior of the rear, driver's side door, near the handle and arm rest.

3. Following the search of the crime scene, Sergeant Matthew Koch, Corporal Marcus Reynolds, and I located and identified the items of evidentiary value and marked them using numbered placards. After obtaining video footage of the scene, photographing the scene, and obtaining measurements for a diagram of the scene, we collected the evidence. After the collection of the evidence, I transported the evidence to the Troop F Headquarters of the Missouri State Highway Patrol where it was packaged and placed it into the custody of the evidence officer. Certain items of evidence will be sent to the Missouri State Highway Patrol Laboratory for testing and firearm comparisons.

4. At 0135 hours, utilizing a Missouri State Highway Patrol Gunshot Residue Kit, I tested the hands of Mark William Adair for the presence of gunshot residue. The samples were obtained from Adair, who was deceased and still lying in his original position on the ground, next to the University of Missouri patrol vehicle. After obtaining samples from both hands of Adair's body, I packaged the samples as evidence and transported them to the Troop F Headquarters of the Missouri State Highway Patrol, in Jefferson City, Missouri, where they were placed into the custody of the evidence officer.

5. This investigation is open.

Darrin R. Haslag, Trooper
Division of Drug and Crime Control

Missouri State Highway Patrol
Supplemental Report
Incident # 150216523

SUPPLEMENT #3 - WALK THROUGH WITH OFFICER NEAL SEDGWICK
DATE OF REPORT - 04/16/2015

1. On Wednesday, April 16, 2015, at approximately 0135 hours, I met with Officer Neal Sedgwick of the Columbia Police Department at the scene of the officer involved shooting inside the Hitt Street Garage. Officer Sedgwick was a witness to the assault of Officer Chinaea and the shooting of Mark W. Adair. During this meeting, Officer Sedgwick made a brief walk through of the crime scene and spoke with Corporal Reynolds and me regarding the nature of the circumstances surrounding the incident. The following paragraphs are a synopsis of that briefing.
2. Sedgwick stated that he and Officer Giger were working in an undercover capacity when they reported to Officer Chinaea they observed a white male, who was believed to be Mark W. Adair, enter the Hitt Street Garage. Sedgwick indicated Chinaea entered the garage driving his patrol vehicle, while he and Giger walked through the same entryway on foot. As they walked up the first floor ramp of the parking garage, he noticed Chinaea activate his emergency lighting equipment of his patrol vehicle. Sedgwick also noticed the female witnesses of the incident walking or standing near the area of Chinaea's patrol vehicle.
3. While he (Sedgwick) and Officer Giger approached the second level of the garage, Sedgwick could hear voices. Shortly after he heard the voices speaking, he (Sedgwick) heard a loud noise, what he assumed was something alarming about the situation. After Officer's Sedgwick and Giger made their way to the rear of Chinaea's vehicle, Sedgwick could see a leg lying on the ground. As they ran around the rear, driver's side corner of that vehicle, Sedgwick observed Adair sitting on top of Officer Chinaea, involved in a physical altercation.
4. Sedgwick said at this time, Officer Giger fired his weapon twice at Mark Adair and appeared to strike him. Giger moved closer to Adair and Officer Chinaea, who were still engaged in an altercation, he (Giger) fired his weapon a third time, striking Adair in the head. Officer Chinaea was able to free himself from under Adair and draw his duty weapon firing multiple shots at Mark Adair, who was lying on the ground.
5. After the altercation was over, Mark Adair was disarmed, and secured with handcuffs.
6. All further information regarding this investigation will be submitted on a supplemental report. This case remains active.

Jason P. Clark, Sergeant
Division of Drug and Crime Control

Missouri State Highway Patrol
Supplemental Report
Incident # 150216523

SUPPLEMENT #4 - CRIME SCENE DIAGRAM
DATE OF REPORT: 04/16/2015

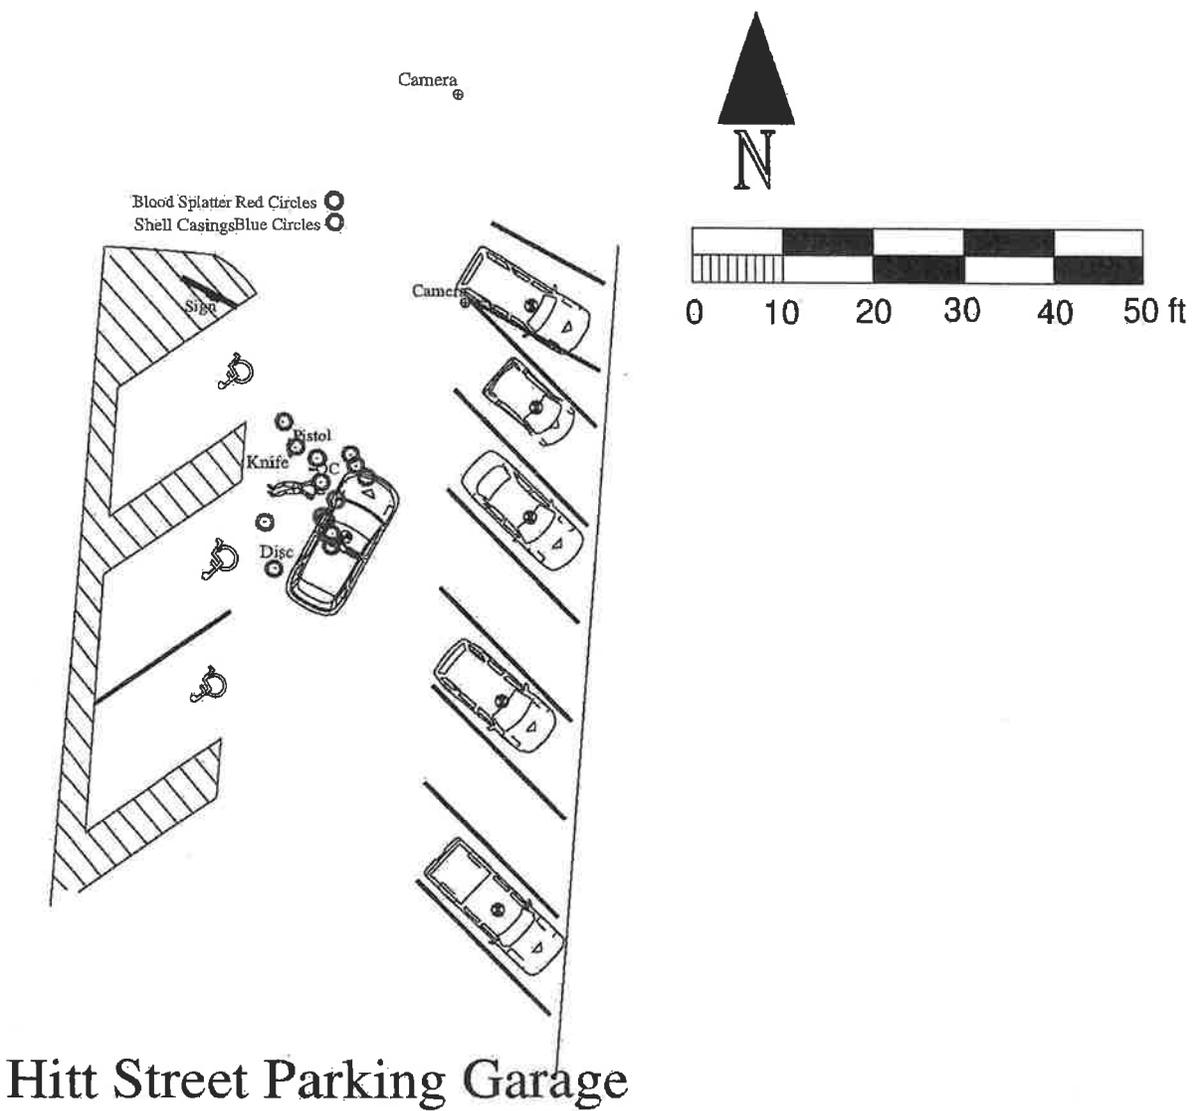

1. On April 16, 2015, at 0051 hours, I was notified by Troop F radio of an officer involved shooting in Columbia, Missouri. The shooting occurred at the Hitt Street parking garage in Columbia, Missouri. I was requested by Division of Drug and Crime Control investigators to respond to the scene and assist with the investigation. At 0146 hours, I arrived at the scene. Investigators requested I use my assigned survey equipment to document the scene and physical evidence. I contacted Sergeant P. J. Kempke, another member of the Missouri State Highway Patrol Major Crash Investigation Unit to respond to the scene and assist me. I set up a Sokkia SRX total station to collect the necessary data points to complete a forensic map. I began mapping the periphery of the scene until Sergeant Kempke arrived. After his arrival, Sergeant Kempke operated the data collector while I held the prism pole.

2. I used the data collected with the total station to create a factual representation of the scene with scalar qualities. The map of the scene and subsequent mapping files are included as appendices to this report. With regard to the accuracy of the measurements obtained, a back sight was established. The first shot taken was to the back sight and its slope distance measured 49.907 feet. The last shot taken was to the back sight and its slope distance measured 49.907 feet. The slope distance was physically measured with a steel tape from the theodolite to the back sight prism and measured 50 feet. Map layers have been designated in the CAD software to differentiate items of evidence.

P. W. Meyers, Sergeant
Missouri State Highway Patrol

Missouri State Highway Patrol
Supplemental Report
Incident # 150216523

SUPPLEMENT #5 – VIDEO RECORDING OF THE SCENE
DATE OF REPORT: 04/16/2015

1. On April 16, 2015, at approximately 0200 hours, I utilized my assigned Sony Handcam recorder and videotaped the scene of an officer involved shooting at the parking garage located at 10th and Hitt Street, in Columbia, Missouri. Two separate recordings were obtained. The first was a recording of the scene of the officer involved shooting, to include the body of Mark Adair, evidence located at the scene, vehicles parked at the scene, and the surroundings. The second video was of the path of travel Adair took as he entered the parking garage, as reported by officers at the scene.
2. Attached to this report is a compact disc containing both videotaped recordings. It will be maintained with the departmental case file.
3. This investigation is open.

D. R. Haslag, Trooper

Incident # 150216523

SUPPLEMENT #6 - RECOVERY OF GIGER'S FIREARM

DATE OF REPORT: 4/20/2015

1. On April 16, 2015, during an investigation of an officer involved shooting, which occurred at the Hitt Street Parking Garage, on the campus of the University of Missouri I seized the weapon and clothing of Officer Timothy Giger for evidentiary purposes. The firearm was seized and will be submitted to the Missouri State Highway Patrol Crime Laboratory for forensic testing. The clothing was reviewed and determined to have no investigative value and returned to Giger on April 17, 2015, at 1345 hours.
2. At approximately 0245 hours, I met with Lieutenant Ethan Ahern at the Columbia Police Department located at 600 East Walnut Street. Lieutenant Ahern had secured the clothing worn and the firearm used by Timothy Giger during the shooting. I took possession of those items, which were being held in evidence locker at the police station.
3. Lieutenant Ahern initially took possession of the aforementioned items, at approximately 0045 hours. The clothing and firearm were secured in a locker, until I made arrangements to pick it up later in the morning hours.
4. The following items were sent to the crime lab;
 - a. Walther PPS .40 Smith & Wesson Caliber Semi Automatic Pistol
 - b. Walther PPS .40 Smith & Wesson Caliber Magazine
 - c. (5) .40 S&W Caliber Pistol Cartridges
5. I was also given a series of digital photographs that depict Officer's Giger and Sedgwick wearing the clothing they wore at time of the incident. They have been submitted on compact disc and will be kept as a permanent part of this investigative file.
6. This case remains active.

Jason P. Clark, Sergeant
Division of Drug and Crime Control

Supplemental Report

Incident # 150216523

SUPPLEMENT #7 - RECOVERY OF CHINEA'S FIREARM

DATE OF REPORT: 4/20/2015

1. On Thursday, April 16, 2015, during an investigation of an officer involved shooting that occurred at the Hitt Street Parking Garage, on the campus of the University of Missouri, I seized the weapon and clothing of Officer Zachary Chinaea for evidentiary purposes. The firearm was seized and will be submitted to the Missouri State Highway Patrol Crime Laboratory for forensic testing. The clothing was reviewed and determined to have no investigative value and returned to Chinaea on April 17, 2015, at 1505 hours.

2. At approximately 0315 hours, I met with Sergeant Shawn Spalding at the University of Missouri Police Department located at 901 Virginia Avenue. Sergeant Spalding had secured the clothing worn and the firearm used by Zachary Chinaea during the shooting. I took possession of those items, which were being held in evidence at the police station. The following items were submitted for forensic testing.

- a. Smith & Wesson, 9mm Luger Pistol
- b. (3) Smith & Wesson 9mm Luger Pistol Magazines
- c. (42) Rounds of 9mm Luger Cartridges

3. This case remains active.

Missouri State Highway Patrol
Supplemental Report
Incident # 150216523

SUPPLEMENTAL REPORT # 8 - BODY CAMERA AND GARAGE VIDEO'S
DATE OF REPORT: 4/20/2015

1. On Thursday, April 16, 2015, at approximately 0315 hours, during an investigation of an officer involved shooting that occurred at the Hitt Street Parking Garage, on the campus of the University of Missouri. I was given digital copies of Officer China's body camera video and the Hitt Street Garage surveillance camera video of the shooting. They will be submitted as attachments to this investigative file.
2. At approximately 0315 hours, I met with Sergeant Shawn Spalding at the University of Missouri Police Department located at 901 Virginia Avenue. Sergeant Spalding gave me copies of the aforementioned mentioned videos. Both video recordings were reviewed and concur with the statements made by the officer's China, Giger and Sedgwick.
3. Officer China's body camera video clearly shows Mark Adair advancing in China's direction, draw a gun with his right hand and point it at China, while he (Adair) physically attacks China at the front of his patrol vehicle. During the altercation, Officer China fights for control of Adair's handgun, and is shortly taken to the ground. While fighting for possession of the gun, Adair manages to obtain top control by straddling China's torso. Within seconds of the fight beginning, you can clearly hear gunfire. The video does not indicate who fired the initial few shots during the struggle for the gun. It is then visible that China removes Adair from the top position and Adair falls to the ground landing on his right side. Adair's handgun and China's pepper spray can be seen lying on the ground, within reach of Adair, while China draws his duty weapon and fires multiple shots into Mark Adair.
4. The aforementioned video description is my recollection of the events captured on China's body camera.
5. This case remains active.

Jason P. Clark, Sergeant
Division of Drug and Crime Control

Missouri State Highway Patrol
Supplemental Report
Incident # 150216523

SUPPLEMENT #9 - NEXT OF KIN NOTIFICATION

DATE OF REPORT: 04/15/2015

1. On April 16, 2015, at approximately 0522 hours, Boone County Sheriff's Deputy Sergeant Kenneth Boyce, Missouri State Highway Patrol Lieutenant E. P. Ahern and I contacted Adair's sister, identified as Vickie Sue Wright, 111 Eastside Drive, Lot 23, Ashland, Missouri. Ms. Wright's date of birth is [REDACTED], 1961. The purpose for our contact was to make next of kin death notification.
2. Upon advising Ms. Wright that her brother was dead and a brief summation of the events surrounding his death, she explained that she had been worried about him recently. She said he was not acting like himself lately and that she had last spoken with him a few days earlier. She said he was looking for a gun. Ms. Wright began crying and then told about how he was not a good person; that he had raped her in the past.
3. I asked Ms. Wright if she had any additional family members in the area and she advised she did not. I inquired if there was anything we could do for her before we left and she advised there was nothing. I provided her a business card and told her to call me if she had any questions.
4. This case is open.

SUPPLEMENT #10 - AUTOPSY OF MARK ADAIR
DATE OF REPORT: 04/16/2015

1. On Thursday, April 16, 2015, at approximately 0600 hours, Sergeant J.P. Clark contacted me on my Patrol issued cell phone. Sergeant Clark requested I attend an autopsy on an individual involved in an officer involved shooting in Columbia, Missouri. The autopsy was scheduled for 0900 hours, on April 16, 2015.
2. On Thursday, April 16, 2015, at approximately 0900 hours, Lieutenant E.P. Ahern and I responded to the Boone County Medical Examiner's office located at the University of Missouri Hospital. Upon our arrival we contacted Doctor Carl Stacy. Dr. Stacy subsequently performed an autopsy upon the body of Mark W. Adair, date of birth October 18, 1963. Evidence collected from the autopsy is listed on the property record attached to this report.

FINAL DIAGNOSES
OF THE BODY OF:
MARK W. ADAIR

- I. Investigation reports that "the decedent resisted arrest and initiated a conflict with police"
- II. Gunshot Wounds of Head and Torso
- III. Superficial Abrasions and Lacerations of Shins, Forehead and Extremities
- IV. Toxicology Report Attached

OPINION:

In my opinion, the cause of death of Mark W. Adair is gunshot wounds of the head and torso.
The manner of death is ruled homicide.

Carl Christopher Stacy, M.D.

June 5, 2015

POST MORTEM EXAMINATION**OF THE BODY OF:****MARK W. ADAIR**

A post mortem examination is performed at the Boone/Callaway County Medical Examiner's office on March 16, 2015 on the body of a white man identified as that of Mark W. Adair. The autopsy is performed under the authority of state law. The examination is conducted by Carl Christopher Stacy, M.D., medical examiner, assisted by Jason Stewart and Scott Noble of the Medical Examiner's Office. The examination is begun at 12:04 P.M.

When first viewed, the body is clothed in white shirt, brown shoes, blue jean shorts, white socks and gray undershorts.

EVIDENCE OF INJURY:

(The order that the injuries are listed is not intended to imply the order in which they occurred)

Some of the wound tracks described below are adjacent to each other and may have intersected.

A. Penetrating Gunshot Wound of the Face and Head

1. Entrance: Located lateral of the left lower eyelid is an abraded gunshot wound of entrance centered 8 centimeters anterior of and 0.4 centimeters inferior of the left ear canal. The perforation is 0.2 by 0.2 centimeters and the ring of abrasion is 1.2 by 0.8 centimeters. Stippling surrounds the wound in an area measuring 11.0 by 9.5 centimeters. No soot surrounds the wound.
2. Path: The hemorrhagic wound track passes through skin and subcutaneous tissue, then the left eye, and then the base of the skull through a 4 by 5 centimeter irregularly fractured skull entrance. This entrance is centered on the ethmoid plate. The hemorrhagic wound track passes through meninges, the left and right frontal lobes and the right parietal occipital lobe, then again through meninges, then through a 4 by 3 centimeter externally beveled defect of the right posterior skull to end beneath the scalp without exiting the skin.
3. Exit: None

4. Projectile: The projectile recovered from the end of this wound track measures 1.5 by 1.0 by 1.0 centimeter in greatest dimensions with a 0.9 centimeter base. This projectile is gray and coppered color. The projectile (#3) is provided by chain of custody to the officers attending the autopsy.
5. Trajectory: left to right, anterior to posterior and slightly inferior to superior
6. Associated injuries: There are fractures extending across the base of the skull and there are secondary wound tracks through the brain due to bone fragmentation.

B. Gunshot Wound of the Right Upper Chest

1. Entrance: Located in the right upper chest centered 29.5 centimeters beneath the top of the head and 9 centimeters to the right of the midline is a perforation measuring 0.2 by 0.2 centimeters with a surrounding abrasion measuring 3 by 1.5 centimeters with the widest portion of the abrasion at the medial inferior portion of the wound. There is no stippling or soot surrounding the wound.
2. Path: The hemorrhagic wound track passes through skin and subcutaneous tissue, then the right pectorals muscle and deltoid arm, then into the right upper arm through a fracture in the humerus ending in soft tissue lateral of the humerus.
3. Exit: None
4. Projectile: There is a copper and gray metal colored projectile measuring 1.4 by 1.4 by 0.9 centimeters in greatest dimension with a 0.9 centimeter base. This projectile (#6) is provided by chain of custody to the officers attending the autopsy.
5. Trajectory: left to right, inferior to superior, and anterior to posterior
6. Associated injuries: There is a fracture of the humerus and hemorrhage within the wound track. The vessels of the axilla appear to be intact.

C. Graze Gunshot Wound of Mid-Chest

1. Entrance: Located in the mid-chest centered 44.2 centimeters beneath the top of the head and 2 centimeters to the left of the midline is a gunshot wound of entrance. This wound is consistent with a graze wound as it is elongated and abraded with no underlying perforations or wound tracks. The total size is 6 by 3 centimeters. There is an abrasion at the inferior medial edge of the wound which is 1 by 0.7 centimeters.

2. There is no soot or stippling surrounding the wound. Superior and medial of the wound are multiple areas of abrasions and contusions ranging from 2 by 0.5 centimeters down to 0.5 by 0.3 centimeters.
3. Path: None
4. Exit: Not Applicable
5. Projectile: None
6. Trajectory: Inferior to superior, left to right and not significantly anterior or posterior.
7. Associated injuries: Abrasions in wound track.

D. Tangential Gunshot Wound of Mid-Chest

1. Entrance: Located in the mid-chest entered 44.2 centimeters beneath the top of the head and 0.8 centimeters left of the midline is a perforation measuring 0.3 by 0.3 centimeters with surrounding abrasion measuring 3.6 by 1.2 centimeters. No soot or stippling surrounds this wound.
2. Path: The hemorrhagic wound track passes between the anterior fourth and fifth ribs, then the right lung, middle lobe to the back where it passes through the third rib and ends beneath the skin in the subcutaneous tissue.
3. Exit: None
4. Projectile: Situated 40 centimeters beneath the top of the head and 14.5 centimeters to the right of the midline is a 1.4 by 1.3 by 1.0 centimeter in greatest dimension irregular projectile with a 0.9 centimeter base. This projectile is copper and gray color. This projectile (#1) is provided by chain of custody to the officers attending the autopsy.
5. Trajectory: Anterior to posterior, slightly superior to inferior and left to right.
6. Associated injuries: This wound contributes to the left thorax of 300 cubic centimeters and results in collapse of the lung.

E. Penetrating Gunshot Wound of Mid-Chest

1. Entrance: Located in the mid-chest centered 51 centimeters beneath the top of the head and on the midline is a 0.3 by 0.3 centimeter perforation with an abrasion measuring 2.1 by 1.1 centimeters. No soot or stippling surrounds the wound.

2. Path: The hemorrhagic wound track passes through skin and subcutaneous tissue, passes into the inferior mediastinum and the apex of the heart where it then perforates the aorta and the esophagus. The wound track ends in the seventh thoracic vertebral body.
3. Exit: None
4. Projectile: There is a projectile measuring 1.5 by 1.4 by 1.0 centimeter with a 0.9 centimeter base recovered from the seventh vertebral body. This projectile is copper and gray in color. The projectile (#2) is provided by chain of custody to the officer attending the autopsy.
5. Trajectory: Anterior to posterior, not significantly right or left or superior-inferior.
6. Associated findings: Hemorrhage in wound track, perforations of heart aorta and associated structures, contribution to the hemorrhage described above.

F. Penetrating Gunshot Wound of Upper Mid-Abdomen

1. Entrance: Located in the upper mid-abdomen centered 54 centimeters beneath the top of the head and 1.2 centimeters left of the midline, is a 0.2 by 0.2 centimeter perforation with surrounding abrasion measuring 2.1 by 1.2 centimeters. No soot or stippling surrounds the wound. Superior and lateral of the wound is an abrasion measuring 2 by 0.8 centimeters.
2. Path: The hemorrhagic wound track passes through skin and subcutaneous tissue, then through the liver, small bowel, pancreas and aorta, then to the left of the spinal column, then between the eighth and ninth ribs where it is recovered beneath the skin.
3. Exit: None
4. Projectile recovered: There is a 1.2 by 1.3 by 1.0 centimeter projectile with a 0.9 centimeter base recovered at the end of the wound track. This projectile is copper and gray colored metal. The projectile (#4) is provided by chain of custody to the officer attending the autopsy.
5. Trajectory: Anterior to posterior, not significantly superior to inferior or left to right
6. Associated injuries: Hemorrhage within wound track, contribution to the hemorrhage as described above.

G. Penetrating Gunshot Wound of the Chest

1. Entrance: Located in the left chest centered 43.3 centimeters beneath the top of the head and 10.2 centimeters to the left of the midline is a 0.3 by 0.3 centimeter perforation with a surrounding 1.7 by 1.2 centimeter abrasion. No soot or stippling surrounds the wound.

2. Path: The hemorrhagic wound track passes between the anterior left third and fourth ribs then the heart and great vessels and base of the heart to the left of the vertebral column, where it ends between the fourth and fifth ribs.
3. Exit: None
4. Projectile: A deformed projectile measuring 1.5 by 1.2 by 1.0 centimeter with a 0.9 centimeter base is recovered from the end of the wound track. The projectile (#5) is provided by chain of custody to the officer attending the autopsy.
5. Trajectory: Anterior to posterior, medial to lateral and not significantly superior or inferior
6. Associated injuries: Injuries of organs as described above. Contribution to the hemorrhage described above.

H. Penetrating Gunshot Wound of Left Lower Chest

1. Entrance: Located in the left lower chest centered 54.2 centimeters beneath the top of the head and 2.5 centimeters to the left of the midline is a 0.8 by 0.5 centimeter perforation with a surrounding 3 by 2.5 centimeter abrasion. Stippling surrounds this wound measuring 3.8 by 3.5 centimeters. No soot surrounds the wound.
2. Path: The hemorrhagic wound track passes through skin and subcutaneous tissue, then between the sixth and seventh ribs on the left, then the stomach and liver and appears to pass through the ninth rib on the left, however, at this point, this wound track crosses other wound tracks.
3. Exit: None
4. Projectile recovered: A deformed projectile measuring 1.5 by 1.3 by 1.0 centimeter with a 0.9 centimeter base that is copper and gray colored is recovered from the end of the wound track. This projectile is provided by chain of custody to the officer attending the autopsy. (#7)
5. Trajectory: Anterior to posterior, slightly lateral to medial and not significantly inferior or superior.
6. Associated injuries: Hemorrhage within wound track.

I. This is the exit for K. See description below.

J. Penetrating Gunshot Wound of Back

1. Entrance: Located in the right lower back centered 54.2 centimeters beneath the top of the head and 14.8 centimeters right of the midline is a gunshot wound of entrance consisting of a 0.6 by 0.5 centimeter perforation with a surrounding 1.5 by 1.1 centimeter abrasion. No soot or stippling surrounds the wound.
2. Path: The hemorrhagic wound track passes through skin and subcutaneous tissue, then into the right retro-peritoneum, where it passes through the right kidney, then passes into the right pleural space, perforating the right lung, then it ends between the third and fourth rib.
3. Exit: None
4. Projectile recovered: There is a deformed 1.8 by 1.2 by 1.0 centimeter projectile with a 0.9 centimeter base. This projectile is copper and gray metal colored. It is provided by chain of custody to the officer attending the autopsy. (#8)
5. Trajectory: Posterior to anterior, inferior to superior, not significantly medial or lateral
6. Associated injuries: As described above.

K. Perforating Gunshot Wound of the Left Lower Back

1. Entrance: Located in the left lower back (K) centered 57 centimeters beneath the top of the head and 6.5 centimeters to the left of the midline is a 0.7 by 0.4 centimeter perforation with surrounding abrasion measuring 1.4 centimeters in greatest dimension. No soot or stippling surrounds this wound.
2. Path: The hemorrhagic wound track passes through skin and subcutaneous tissue and the muscle of the left flank to subcutaneous tissue and skin of the left lower abdomen where there is an exit wound.
3. Exit (I): Centered 61 centimeters beneath the top of the head and 22 centimeters to the left of the midline is an irregular 0.5 by 0.5 centimeter perforation with a surrounding abrasion measuring 2.4 by 1.2 centimeters. This is consistent with a shored exit. No soot or stippling surrounds the wound.
4. Projectile recovered: None

5. Trajectory: Due to the shored nature of the exit, the direction cannot be determined with absolute certainty, however, it is most likely posterior to anterior, superior to inferior and not significantly right or left.
6. Associated injuries: Hemorrhage within wound track.

Additional Blunt Force Injuries

There is an abrasion of the right forehead measuring 1.7 by 0.8 centimeters.

There is an abrasion of the right medial eyelid measuring 0.8 by 0.3 centimeters.

There is a linear abrasion of the right anterior arm measuring 5 by 0.1 centimeters and beneath this abrasion there is an additional linear abrasion measuring 6 by 0.1 centimeters.

There is a linear abrasion of the right forearm measuring 8 by 0.1 centimeters.

There is an indentation without abrasion of the right wrist measuring 0.3 by 0.8 centimeters.

There is a linear abrasion of the left anterior arm measuring 11 by 0.1 centimeters.

There are multiple linear abrasions of the posterior left arm and forearm measuring as follows: upper left arm 2 by 0.1 and 0.6 by 0.1 centimeters, left posterior mid-arm measuring 1.5 by 0.1 centimeters and 0.8 by 0.1 centimeters, left lateral arm measuring 0.1 centimeters and with each in a 3.5 by 3 centimeter area.

There is an indentation of the left wrist without underlying abrasion or contusion measuring 0.2 by 0.4 centimeters.

There is a horizontal linear abrasion of the posterior right elbow measuring 6 by 0.1 centimeters.

There is a diagonal abrasion of the posterior upper right forearm measuring 1 by 0.1 centimeters.

There are linear abrasions of the right dorsal forearm measuring 6.0 centimeters by 0.1 centimeters each.

There are two abrasions of the right knee measuring 4 by 2.0 and 1.5 by 2 centimeters.

There are two abrasions of the left knee measuring 0.1 centimeters in greatest dimension and 0.7 by 0.5 centimeters.

There are numerous linear patterned abrasions of the shins in a 20 by 12 centimeter area on the right and 22 by 21 centimeter area of the left. These abrasions average 0.1 centimeters each in width.

Further autopsy examination reveals no underlying injuries in the areas of blunt force injuries.

EVIDENCE OF THERAPY:

There are electrocardiogram electrodes of the right and left forearm and right and left legs.

EXTERIOR:

The body is that of a well-developed, well-nourished man whose appearance is consistent with the given age of 51 years.

The length of the body from the bottoms of the feet to the top of the head is 5 feet and 8 inches. The weight is 185 pounds. Rigor mortis is completely developed. Livor mortis with an appropriate pattern is posterior and not fixed. The body is ambient temperature. There are no signs of decomposition.

The injuries and changes described above are identified. The head hair is brown to gray. There is partial male pattern baldness and there is facial stubble. The left iris is not visible. The right iris is blue and there are no petechiae of the conjunctivae or sclerae. Except for the injuries described above, the nose, ears and mouth are unremarkable. The teeth are natural and in fair condition. The frenulum is intact and not contused. There is a tribal tattoo of the left arm. There is a tattoo of a gun of the right ankle. There is a scar of the left knee measuring 2.2 by 0.2 centimeters. The neck, chest, back and abdomen are unremarkable except for the injuries and findings described above. The external genitalia are those of an adult male. The extremities are unremarkable except for the injuries and findings described above.

INTERIOR:

The injuries described above are identified. The thoracic and abdominal organs are in their normal relations. The pericardial sac is midline, but is perforated. The diaphragmatic leaflets are intact and normally situated except for a perforation of the left diaphragmatic leaflet. There are 300 cubic centimeters of partially clotted blood within the right thoracic cavity, 600 cubic centimeters of partially clotted blood within the left thoracic cavity, and 150 cubic centimeters of partially clotted blood within the peritoneal cavity.

NECK:

There are no hemorrhages or other abnormalities of the soft tissues of the neck, larynx, trachea or cervical vertebral column. The hyoid bone is intact and there are no subcapsular

hemorrhages of the thyroid gland.

CARDIOVASCULAR:

The heart weighs 360 grams and the perforations described above are identified. The epicardial surface is unremarkable except for the perforations described above. The coronary arteries have a normal right dominant distribution pattern and the origins and paths of the coronary arteries are normal. There is 10% focal calcific atherosclerotic stenosis of the coronary arteries except for focal 20% atherosclerotic stenosis of the left anterior descending coronary artery. No thrombi are present within the coronary arteries. The left ventricular posterior free wall thickness is 1.5 centimeters. The interventricular septal thickness is 1.1 centimeters.

The right ventricular wall thickness is 0.2 centimeters. The valve circumferences are: tricuspid 8.9 centimeters; the pulmonic valve is lacerated; the mitral valve is 9.5 centimeters; and the aortic valve is 6.2 centimeters, but it is lacerated. The four heart chambers are unremarkable except for the injuries described above. The valves are unremarkable except for the injuries described above. The foramen ovale is lacerated, but there are no ventricular septal defects. There are no thrombi within the chambers. There are no abnormalities of the papillary muscles or chordae tendineae. The myocardium is dark red-brown, without evidence of scarring.

There are no thrombi within the pulmonary artery. The aorta and its major branches are unremarkable except for the perforations described above. The great veins are unremarkable.

RESPIRATORY:

The injuries described above are identified. There are multiple perforations of each lung. The right lung weighs 400 grams and the left lung weighs 350 grams. There are no thrombi or emboli within the pulmonary artery. The pulmonary arteries, bronchi and their major branches are unremarkable. The parenchyma in all five lobes is uniformly congested. There are no distal pulmonary emboli. There are no cystic lesions, nodules or distinct consolidations.

LIVER, COMMON BILE DUCT, GALL BLADDER AND PANCREAS:

The injuries described above are identified. The liver weighs 1980 grams. The capsule is smooth and glistening. The parenchyma is soft and brown without fibrosis, nodules or focal lesions except for the gunshot wounds described above. The gall bladder and common bile duct are unremarkable and there is 5 milliliters of bile. The pancreas has an unremarkable firm, tan, lobulated parenchyma.

GASTROINTESTINAL:

The injuries described above are identified. The esophagus is unremarkable. The stomach

contains 450 milliliters of brown fluid. No pill fragments are identified. The gastric and duodenal mucosae are unremarkable except for the injuries described above.

The remaining portions of the small intestine and colon are unremarkable. The appendix is present.

GENITOURINARY:

The injuries described above are identified. The right kidney weighs 180 grams and the left kidney weighs 170 grams. The capsules strip with ease to reveal pale, smooth subcapsular surfaces. The cortices and medullae are distinct. There are no abnormalities of the papillae, calyceal systems, pelvis or ureters. The urinary bladder contains 60 milliliters of straw colored urine and is unremarkable. The prostate is unremarkable. The testes are descended and without masses. The testes are sectioned and no areas of hemorrhage are identified.

ENDOCRINE:

Each adrenal gland has an unremarkable yellow cortex and gray medulla. The thyroid and pituitary glands are unremarkable.

SPLEEN:

The spleen weighs 200 grams and there is a 1.8 centimeter accessory spleen in the distal pancreas. The capsule is smooth and glistening and the white and red pulp is distinct.

LYMPHATIC:

No lymphadenopathy is identified.

MUSCULOSKELETAL:

The injuries described above are identified. There are no apparent pre-existing abnormalities of the axial or appendicular skeletal systems or musculature.

HEAD:

The injuries described above are identified. There are contusions of the scalp and fractures of the skull associated with the gunshot wound described above. There is epidural, subdural and subarachnoid hemorrhage. The brain weighs 1450 grams. The cranial nerves and cerebral vessels are unremarkable except in the areas of the gunshot wound described above. There is mild flattening of the gyri and narrowing of the sulci. Except for the injuries described above, the cerebral hemispheres are symmetrical and there are no pre-existing cortical lesions. There is no uncal grooving or cerebellar tonsillar herniation.

Sections of the cerebral hemispheres, brainstem and cerebellum reveal the injuries described above.

MICROSCOPIC:

Representative sections of all organs are retained in formalin for two years for possible further study.

RADIOGRAPHS:

Post mortem radiographs were obtained in the areas of the gunshot wounds described above in order to identify the locations of the projectiles.

TOXICOLOGY:

Samples of vitreous, subclavian/vena cava blood, bile, urine and liver are submitted to the St. Louis University Forensic Toxicology Laboratory for a drug screen.

Missouri State Highway Patrol
Supplemental Report
Incident # 150216523

SUPPLEMENT #11 – KATHERINE E. LOHER INTERVIEW
DATE OF REPORT: 04/16/2015

1. On Thursday, April 16, 2015, at about 1300 hours, I interviewed Katherine E. Loher in regard to the Missouri University Police Department officer involved shooting that occurred inside the Hitt Street Parking Structure in downtown Columbia, Missouri. The officer involved shooting incident occurred on Wednesday, April 16, 2015, at about 2300 hours, and Ms. Loher was a witness to the incident. Ms. Loher's information follows:

Katherine "Katy" Elizabeth Loher
White, female, 5'2", 117 lbs, grey eyes, brown hair
DOB: 1994
7410 Devonshire Avenue, Shrewsbury, Missouri 63119
606 E. Rollins Street, Columbia, Missouri 65201
Phone Number:

2. Ms. Loher stated she and two of her friends, Nicole Caldwell and Jaclyn Mock, had been at another friends' apartment adjacent to the Hitt Street Parking Structure during the evening of Wednesday, April 15, 2015, prior to the shooting incident. Shortly before 2300 hours, Ms. Loher stated she, Ms. Caldwell and Ms. Mock decided to leave the apartment and return to their shared residence in Columbia, Missouri. Ms. Loher explained she had ridden in Ms. Caldwell's vehicle, a red Ford Escape, to get to the apartment, and the Escape was parked inside the Hitt Street Parking Structure.

3. Ms. Loher, Ms. Caldwell and Ms. Mock all entered the Hitt Street Parking Structure from the northwest stairwell and exited the stairwell at the second level of the structure. Ms. Caldwell's vehicle was parked inside the garage, on the second level, on the east side of the northwest travel lane, across from and just to the south of the 10th Street entrance, which is the west entrance to the garage. The three women crossed to the east side of the driving lane on the second level and began walking from the north to the south toward Ms. Caldwell's car. Ms. Loher stated she observed an older, white male walking toward them from south of Ms. Caldwell's car and on the east side of the driving lane.

4. Ms. Loher said the man made a statement from a distance, but she did not understand what he had said. She and the other two women continued to walk toward Ms. Caldwell's car and the man continued to approach the women from the south side of Ms. Caldwell's car. The man verbally contacted the three women again stating something to the effect of "You look like Taylor Swift." Ms. Loher stated she was not certain who the man was speaking to, so she replied quickly, saying "Thanks" and continued walking toward Ms. Caldwell's vehicle. As they got closer to Ms. Caldwell's car, the man got closer to them and stated something to the effect of "I'm sure you get that a lot, you are very pretty." Ms. Loher stated she responded, saying "Thank you" again and then reached for the door to the car to enter Ms. Caldwell's vehicle.

When she touched the handle to the vehicle door, Ms. Loher stated she noticed a "police car" had pulled to a stop, directly behind Ms. Caldwell's vehicle, blocking it in the parking stall.

5. Ms. Loher stated all three women were discussing their hopes of the police car moving so they could leave as they stood outside the vehicle. Ms. Loher stated she heard the police officer and the man talk to each other, but did not understand or pay attention to what they actually said. She stated both the officer and the man were on the "other side of the police car" from her, so she could not see either one of them. Ms. Loher then described suddenly hearing "footsteps coming" and seeing "a man in jeans a gray t-shirt and a hat... and we looked in his hands and saw a gun in his hands." Ms. Loher stated she and the other two women quickly entered Ms. Caldwell's car as they heard "shots fired." Ms. Loher stated she believed the man with the gun was settling "a bar fight" with the first man she encountered and shot both the officer and the first man.

6. Ms. Loher believed she and the other two women would become the next target since they witnessed the shooting and described how she and the other women hid inside Ms. Caldwell's vehicle near the floorboard. Ms. Loher contacted law enforcement by dialing 911 on her personal wireless phone. Ms. Loher stated the 911 operator advised her to contact the uniformed law enforcement officers at the scene. After Ms. Loher alerted the officers at the scene of her presence, she and the other two women were escorted away from the scene and then transported to their residence.

7. When asked, Ms. Loher believed she and the other women left the apartment they were at around 2252 hours. She stated she believed she first encountered the suspect around 2255 hours. Ms. Loher stated she felt uncomfortable with the suspect prior to the first law enforcement officer's arrival and believed he was "homeless." She further described that she believed the suspect might have been "strung out" on drugs or alcohol. Ms. Loher stated after the situation was explained, she felt very fortunate the Missouri University Police Officer and the Columbia Officer were present and protected her from the suspect.

8. I recorded this interview with my Patrol issued Olympus Digital Voice Recorder. A copy of the audio file of this interview was recorded to a CD-R disc and is attached to this report. The recording will also be maintained in the departmental case file.

9. This case is open.

Supplemental Report
Incident # 150216523

SUPPLEMENT #12 – INTERVIEW OF NICOLE E. CALDWELL
DATE OF REPORT: 04/16/2015

1. On Thursday, April 16, 2015, at about 1322 hours, I interviewed Nicole Elizabeth Caldwell in regard to the Missouri University Police Department Officer Involved Shooting that occurred inside the Hitt Street Parking Structure in downtown Columbia, Missouri. The Officer Involved Shooting incident occurred on Wednesday, April 16, 2015, at about 2300 hours, and Ms. Caldwell was a witness to the incident. Ms. Caldwell's information follows:

Nicole Elizabeth Caldwell
White, female, 5'7", 120 lbs, brown eyes, brown hair
DOB: , 1994
7349 Spruce Hill Court, O'Fallon, Missouri 63368
606 E. Rollins Street, Columbia, Missouri 65201
Phone Number:

2. Ms. Caldwell stated she went to her friend's apartment at the Brookside Downtown Apartments in Columbia, Missouri about 2100 hours on the evening of Wednesday, April 16, 2015. She advised she drove her personal vehicle to the Hitt Street Parking Structure and parked it there before walking the short distance to her friend's apartment. Ms. Caldwell stated she was at that apartment for approximately two hours when she left with her two friends, Katherine Loher and Jaelyn Mock, shortly before 2300 hours.

3. Ms. Caldwell, Ms. Loher, and Ms. Mock all entered the Hitt Street Parking Structure from the northwest stairwell and exited the stairwell at the second level of the structure. Ms. Caldwell's vehicle was parked inside the garage, on the second level, on the east side of the northwest travel lane, across from and just to the south of the 10th Street entrance, which is the west entrance to the garage. The three women crossed to the east side of the driving lane on the second level, and began walking from the north to the south toward Ms. Caldwell's car. Ms. Caldwell stated she observed an older man walking toward them from south of Ms. Caldwell's car and on the east side of the driving lane.

4. Ms. Caldwell and the other two women continued to walk toward Ms. Caldwell's car and the man continued to approach the women from the south side of Ms. Caldwell's car. The man verbally contacted the three women, and Ms. Caldwell stated she immediately felt uncomfortable with the man and the way he was approaching and talking to the three women. She stated she did not pay much attention to exactly what he said, but he said things to the effect of "You're very pretty and other uncomfortable things like that." Ms. Caldwell stated she was paying more attention to the police officer that was pulling around the corner from behind the man. She stated it appeared the officer was patrolling the garage and she felt more comfortable with the situation once she saw the officer.

5. As they got closer to Ms. Caldwell's car, the man got closer to them and the officer pulled to a stop directly behind Ms. Caldwell's car, blocking it in the parking stall. Ms. Caldwell stated the officer exited his patrol vehicle and asked to speak with the man that had been speaking to the three women. The older man turned toward the officer, walking around the front of the officer's vehicle and out of view of the three women. Ms. Caldwell stated she had already entered her vehicle, but had not yet put her key in the ignition, when she saw another man running through the parking garage toward the officer with a gun drawn. Ms. Caldwell, upon observing the man running with the gun, ducked down to the floor of her vehicle, along with her two friends.

6. Ms. Caldwell stated she heard gunfire, "anywhere between four to six" shots immediately after she had ducked to the floor. Ms. Caldwell stated she did not really know what had happened, but Ms. Loher dialed 911 from her personal wireless phone, as all three women hid in Ms. Caldwell's vehicle. The 911 operator advised Ms. Loher and the three women to contact the uniformed law enforcement officers at the scene. After the three women alerted the officers at the scene of their presence, Ms. Caldwell and the other two women were escorted away from the scene and then transported to their residence.

7. When asked when the first time the women encountered the man in the garage, Ms. Caldwell stated the man was walking "on the bumpers" of the cars that were parked on the same side as her vehicle in the parking garage. Ms. Caldwell went on to say "it did not look like he was trying to get anywhere fast." She stated "the second he saw us, he kind of said something out loud, but he was too far away." Ms. Caldwell stated she believed had the officer not arrived when he did, the man would have kept them from getting to her vehicle. When asked, Ms. Caldwell stated she did not hear the man's response to the officer's request to speak with him, as she felt uncomfortable and wanted to enter her vehicle. Ms. Caldwell stated she did not see or hear anything that occurred between the officer and the man she encountered, but stated there was a very short amount of time that elapsed before she saw the man with the gun running toward the officer's vehicle. When asked, Ms. Caldwell stated she and her two friends were never overtly threatened by the man, with a weapon or otherwise, though she felt "very uncomfortable" by his presence and his actions. She further stated "he didn't seem like he was very right in the mind."

8. I recorded this interview with my Patrol issued Olympus Digital Voice Recorder. A copy of the audio file of this interview was recorded to a CD-R disc and is attached to this report. The recording will also be maintained in the departmental case file.

9. This case is open.

Missouri State Highway Patrol
Supplemental Report
Incident # 150216523

SUPPLEMENT #13 – INTERVIEW OF JACLYN R. MOCK
DATE OF REPORT: 04/16/2015

1. On Thursday, April 16, 2015, at about 1540 hours, I interviewed Jaclyn Rose Mock in regard to the Missouri University Police Department Officer Involved Shooting that occurred inside the Hitt Street Parking Structure in downtown Columbia, Missouri. The Officer Involved Shooting incident occurred on Wednesday, April 16, 2015, at about 2300 hours and Ms. Mock was a witness to the incident. Ms. Mock's information follows:

Jaclyn Rose Mock
White, female, 5'9", 145 lbs, blue eyes, blonde hair
DOB: , 1995
20026 E. 58th Place, Aurora, Colorado 80019
606 E. Rollins Street, Columbia, Missouri 65201
Phone Number:

2. Ms. Mock stated she had gone to her friend's apartment during the evening of Thursday, April 16, 2015. After spending a few hours there, Ms. Mock stated she was unsure of the time she left the apartment with two other women, Nicole Caldwell and Katherine Loher. The three women walked to the Hitt Street Parking Structure from the apartment and were going to ride with Ms. Caldwell in Ms. Caldwell's personal vehicle back to their shared residence in Columbia, Missouri.

3. Ms. Mock stated she and the other two women were walking on the second level of the parking structure toward Ms. Caldwell's car when they observed an older, man walking toward them from south of Ms. Caldwell's car and on the east side of the driving lane. As the women approached Ms. Caldwell's car, the man started walking toward them and made a comment that Ms. Mock did not understand. Ms. Mock stated she responded in kindness, but she felt like he did not "seem like he was in the right state of mind." Ms. Mock stated the man continued to walk toward them as the women closed the distance to Ms. Caldwell's car. Ms. Mock stated she saw a police car pull around the corner to the south of the man, just as Ms. Mock made it to Ms. Caldwell's car.

4. As she entered the car, Ms. Mock stated she heard the police man ask to speak with the man that had been approaching the women. Ms. Mock stated the police officer had pulled to a stop and parked directly behind Ms. Caldwell's car, hindering them from backing out of the parking stall. Ms. Mock stated she and Ms. Caldwell were discussing being blocked in when Ms. Mock heard the "sounds of shots." Ms. Mock stated all three of the women got down as low as they could in the vehicle. Ms. Mock said she looked out of the vehicle's window and saw a man running, seeing "a flash of silver." Ms. Mock stated she counted six shots during the incident. Ms. Mock stated the women waited and then Ms. Loher called 911 from her personal wireless phone. The 911 operator advised the women to alert the officers present at the scene to their

presence. After the three women alerted the officers at the scene of their presence, Ms. Mock and the other two women were escorted away from the scene and then transported to their residence.

5. When asked, Ms. Mock stated she immediately “got a shiver” down her spine when she first observed the man, further describing her feelings as “a bad vibe.” When asked what the man said to her, Ms. Mock stated the man “told me I looked like Taylor Swift.” Ms. Mock stated the man continued to approach the three women as he continued to make reference to their appearance. Ms. Mock stated the man was within ten feet and continuing to approach the women when they had made it to the car and the officer pulled up. Ms. Mock stated “it didn’t really look like he was going anywhere” when she first observed him and he seemed to be walking directly toward the three women. Ms. Mock felt like the man was being aggressive in his actions, but he never overtly threatened the women in anyway.

Ms. Mock stated she believed the officer stopped because the officer could tell the women felt uncomfortable with the man.

6. I recorded this interview with my Patrol issued Olympus Digital Voice Recorder. A copy of the audio file of this interview was recorded to a CD-R disc and is attached to this report. The recording will also be maintained in the departmental case file.

7. This case is open.

SUPPLEMENT #14 – IDENTIFICATION OF MARK ADAIR
DATE OF REPORT: 04/16/2015

1. On Thursday, April 16, 2015, Sergeant J.P. Clark and I responded to the Missouri State Highway Patrol's Criminal Justice Information Systems (CJIS) located in Jefferson City, Missouri. Upon our arrival we contacted Rainie L. Autrey and provided her a ten-print card from the individual we believed to be Mark W. Adair, date of birth October 18, 1963. Ms. Autrey entered the fingerprints into AFIS and confirmed they were Mark W. Adair's fingerprints.

SUPPLEMENT #15 – PHOTOGRAPHS OF GIGER AND SEDGWICK
DATE OF REPORT: 04/16/2015

1. On April 16, 2015, during an investigation of an officer involved shooting, which occurred at the Hitt Street Parking Garage, on the campus of the University of Missouri. I took possession of a series of photographs taken of Officer's Giger and Sedgwick with the clothing they were wearing during the incident.
2. Lieutenant Ahern initially took possession of the photos, at approximately 0045 hours, I kept them until I made arrangements to pick it up later in the early morning hours. They have been submitted on compact discs and will be kept as a permanent part of this investigative file.
3. This case remains active.

Incident # 150216523

SUPPLEMENT #16 – INTERVIEW JOHN BARROW/REALITY HOUSE CARE MANAGER
DATE OF REPORT: 04/17/2015

1. On April 17, 2015, I spoke by phone with John Barrow, who is a case manager at the Reality House, located at 1900 East Prathersville Road, Columbia, Missouri. The Reality House is an adult treatment facility located in Columbia, Missouri, which specializes in alternative treatment options for adult offenders. We received information that Mark Adair, who was a resident of the Reality House, made statements to staff regarding his intentions to harm himself or others once outside the facility.
2. Barrow indicated that he was Adair's case manager while he was housed at the Reality House. I asked Barrow if Adair had made any statements regarding his desire or plan to harm himself or others once he left the Reality House. Barrow stated Adair did not indicate his plans and that Adair left the treatment facility without telling anyone. Barrow stated Adair's leaving was a violation of his parole and in turn, was the reason for the warrants which were issued for his arrest. Barrow stated Adair's time at the Reality House was a condition of his parole and indicated Adair left on April 14, 2015.
3. This investigation is open.

Missouri State Highway Patrol
Supplemental Report
Incident # 150216523

SUPPLEMENT #17 – INTERVIEW OF TIMOTHY GIGER
DATE OF REPORT: 04/21/2015

1. This report details the statement of Officer Timothy Giger of the Columbia Missouri Police Department, regarding the assault of Officer Zachary Chinae and the subsequent shooting of Mark W. Adair; who is the suspect of this investigation. This interview took place at the Columbia Police Department, located at 600 Walnut Street, Columbia, Missouri, at approximately 1400 hours, on Friday, April 17, 2015.
2. The following paragraphs are my recollection of the interview; an audio and video recording of the interview was captured digitally in its entirety and has been submitted with this report as an attachment to this investigative file.
3. Officer Giger said that he and Officer Sedgwick were working in an undercover capacity during the evening hours of April 15, 2015. They were on foot patrol in downtown Columbia, in an attempt to locate Mark W. Adair; who was a suspect in an earlier unrelated robbery and sexual assault.
4. While walking near the area of Shakespeare Pizza on the Campus of the University of Missouri, Giger said they observed a subject who they believed to be Adair walking in the area of Shakespeare's toward the Hitt Street Parking Garage. As they followed the suspect, and after making contact with the police department to report the suspected sighting of Adair, he (Adair) entered the Hitt Street Garage on foot.
5. When Adair entered the garage they (Giger and Sedgwick) flagged over a University of Missouri Police Officer driving his patrol vehicle. After informing that officer of the whereabouts of Adair, who was by this time walking up the first floor ramp inside the garage, both he and Sedgwick followed the University Officer (Zachary Chinae) inside the garage as he pursued Adair in his vehicle.
6. Near the second floor of the garage, Giger observed Adair speaking with two white females near a red car that was parked inside the garage. As Officer Chinae approached the suspect and the females, Giger could hear them speaking to each other. When Officer Chinae pulled up to Adair, Chinae activated the overhead lights on the patrol vehicle. It was then that Mark Adair began to walk in Chinae's direction. Giger realized at this point that Adair was going to attack Officer Chinae. Giger and Sedgwick began to run in the direction of the fight which had begun immediately as Adair reached Chinae's location.
7. When Giger reached the back left corner of Chinae's vehicle, he saw that Adair was sitting on top of Officer Chinae. Giger believed that Chinae was in dire peril, so he fired two shots at Adair, striking him in the back. As the fight continued, Giger circled to the left side of Adair. It

was then Giger shot a third round at Adair, which struck him in the right eye. When Adair fell to the ground, Chinae shot Adair several times in the chest, which ended the threat.

8. During Giger's statement, it was apparent that his recollection was slightly different than what could be seen on Officer Chinae's body camera and discovered during my investigation. The first being there were three females present during the incident not two, and when Giger fired his third shot at Adair, the round struck Adair in the left eye not the right.

9. I ended my interview with Giger at approximately 1425 hours. Giger was then allowed to view the video evidence.

10. On April 17, 2015 at 1505 hours, I gave Officer Giger the clothes he wore at the time of the shooting back to him; these items had no evidentiary value regarding this investigation. A copy of the signed property record has been submitted with this report.

11. This case remains active.

Jason P. Clark, Sergeant
Division of Drug and Crime Control

JPC:ear

SUPPLEMENT #18 – INTERVIEW OF OFFICER Z. CHINEA
DATE OF REPORT: 04/22/2015

1. This report details the statement of Officer Zachary Chinaea of the University of Missouri Police Department, regarding the shooting of Mark W. Adair; who is the suspect of this investigation. This interview took place at the University of Missouri Police Department, located at 901 Virginia Avenue, Columbia, Missouri, at approximately 1517 hours, on Friday, April 17, 2015.
2. The following paragraphs are my recollection of the interview; an audio recording of the interview was captured digitally in its entirety and has been submitted with this report as an attachment to this investigative file.
3. Officer Chinaea said that he was on duty during the evening hours of April 15, 2015. While driving in the area of the Hitt Street Garage, he was approached by two citizens who informed him about a person fitting the description of Mark W. Adair, who was a suspect in an earlier unrelated robbery and sexual assault. Chinaea later discovered the citizens to be Columbia Police Officers. Officer Chinaea said the suspect entered the Hitt Street Garage walking through the north entrance. He observed Adair walking up the first floor ramp inside the garage.
4. Chinaea entered the garage driving his patrol vehicle in an attempt to locate and question Adair. Near the second floor of the garage, Chinaea observed Adair speaking to a group of white females near a car that was parked inside. As Officer Chinaea approached the suspect, he activated the overhead lights of the patrol vehicle, stopped his vehicle and exited the driver's door. While speaking to Adair, Adair began to walk in Chinaea's direction. When he rounded the front driver's corner of the patrol vehicle, he produced a handgun and pointed it at Chinaea.
5. Chinaea immediately engaged Adair by grabbing the firearm with his left hand, in an attempt gain control of the weapon. While struggling for the gun, he fell backwards and Adair landed on top of Officer Chinaea.
6. Lying on his back beside his patrol car, Chinaea said he continued to struggle for the gun. It was at that point, Adair removed Chinaea's pepper spray from his duty belt and attempted to spray him. Chinaea grabbed the pepper spray with his left hand and the gun in his right. Chinaea managed to gain control of Adair's handgun and attempted to shoot Adair with it by pulling the trigger multiple times. Chinaea believed he was firing Adair's weapon but was unable to strike him and thought those rounds were striking the top of the parking garage. The rounds that Chinaea thought he was firing from Adair's handgun were actually being fired by Officer Giger at Adair. Chinaea was unaware that Giger or Sedgwick had come to his assistance.

7. When China managed to remove Adair off of his chest, he regained his footing and could see Adair's firearm and his pepper spray lying in front of Adair. It was then he drew and fired several rounds striking Adair in his chest.

8. I ended my interview with China at approximately 1550 hours. China was then allowed to view the video evidence.

9. On April 17, 2015 at 1515 hours, I gave Officer China his uniform and duty equipment he wore at the time of the shooting back to him; these items had no evidentiary value regarding this investigation. A copy of the signed property record has been submitted with this report.

10. This case remains active.

Supplemental Report
Incident # 150216523

SUPPLEMENT #19 – INTERVIEW OF NEAL SEDGWICK
DATE OF REPORT: 04/28/2015

1. On Friday, April 17, 2015, at approximately 1615 hours, I met with Officer Neal Sedgwick of the Columbia Police Department at the Police Station located at 600 Walnut Street, regarding the officer involved shooting of Mark Adair. The following paragraphs are my recollection of that interview.
2. Sedgwick stated that he and Officer Giger were working in an undercover capacity when they reported to Officer Chinaea they observed a white male, who was believed to be Mark W. Adair, enter the Hitt Street Garage. Sedgwick indicated Chinaea entered the garage driving his patrol vehicle, while he and Giger walked through the same entryway on foot. As they walked up the first floor ramp of the parking garage, he noticed Chinaea activate his emergency lighting equipment of his patrol vehicle. Sedgwick also noticed the female witnesses of the incident walking or standing near the area of Chinaea's patrol vehicle.
3. While he (Sedgwick) and Officer Giger approached the second level of the garage, Sedgwick could hear voices. Shortly after he heard the voices speaking, he (Sedgwick) heard a loud noise, which he assumed was something alarming about the situation. After Officer's Sedgwick and Giger made their way to the rear of Chinaea's vehicle, Sedgwick could see a leg lying on the ground. As they ran around the rear, driver's side corner of that vehicle, Sedgwick observed Adair sitting on top of Officer Chinaea, involved in a physical altercation.
4. Sedgwick said at this time, Officer Giger fired his weapon twice at Mark Adair and appeared to strike him. Giger moved closer to Adair and Officer Chinaea, who were still engaged in an altercation, he (Giger) fired his weapon a third time, striking Adair in the head. Officer Chinaea was able to free himself from under Adair and draw his duty weapon firing multiple shots at Mark Adair, who was lying on the ground.
5. The second interview of Neal Sedgwick revealed no information that was not previously noted during his first interview the night of the shooting.
6. This case remains active.

Missouri State Highway Patrol
Supplemental Report
Incident # 150216523

SUPPLEMENT #20 – INTERVIEW OF MITCHELL PORTER
DATE OF REPORT: 04/16/2015

1. On April 16, 2015, while processing the scene of an officer involved shooting located at the Hitt Street Parking Garage, on 10th and Hitt Street, in Columbia, Missouri, an obviously intoxicated male, inadvertently entered the crime scene through an entry door located on the building's west side. This intoxicated male passed through several lines of police tape before walking into the garage and as a result, into the crime scene. I immediately noticed the male, as he walked through the doorway of the parking garage, and confronted him as to why he was there. The male appeared extremely intoxicated and confused. I forced the male against the west side wall of the parking garage and away from the body of Mark Adair, and other evidence. After I secured the intoxicated male to the wall, he was led from the crime scene by members of the University of Missouri Police Department and the Columbia Police Department. Although the male entered into the area of the crime scene through the perimeter which was identified using crime scene tape, at no time did he get close to or contaminate any items of evidentiary value. Officers with the University of Missouri Police Department and the Columbia Police Department stated the male indicated he was unaware he walked into a crime scene.

2. On April 17, 2015, I was provided with contact information from the University of Missouri Police Department for the intoxicated male who entered the crime scene on April 16, 2015. The male was identified as Mitchell J. Porter, date of birth [redacted], 1992. The University of Missouri Police Department provided Porter's telephone number as [redacted]. Later that day, I called Porter and left a message for him to return my call. Porter failed to return my call and on April 20, 2015, I once again called his number and left a message.

3. On the afternoon of April 20, 2015, Mitchell J. Porter returned my call and I spoke with him briefly, by phone. Porter stated he did not recall walking into the crime scene, and for that matter, did not recall entering the Hitt Street Parking Garage. Porter stated he was highly intoxicated and could not remember most of the evening. I asked Porter if he knew Mark Adair. Porter stated he did not. I asked Porter if he knew anyone with the University of Missouri Police Department, the Columbia Police Department, or the Missouri State Highway Patrol. Porter stated he did not. I asked Porter if he had any problems with any of those departments. Porter stated he did not. I asked Porter if he remembered seeing the crime scene or knew of the incident. Porter stated he did not recall seeing the crime scene and indicated he learned of the shooting in the days following, through local news channels.

4. This investigation is open.

Reporting Officer _____

Date: _____

OfficerID: Lawzar1, Original Narrative

On 4/15/2015, at approximately 2259 hours, I, Officer Ryan Lawzano, was on patrol at the intersection of Elm Street and Watson Place, when I heard gun shots.
Investigation to follow.

OfficerID: Lawzar1, Supplement Investigative Narrative

It should be noted prior in the shift, the Columbia Police Department had contacted the University of Missouri Police Department in order to make our department aware that an armed and dangerous suspect, identified as Mark W Adair, had recently been seen in the area of downtown and could possibly be on or near campus.

As I was driving, I heard the sound of three gunshots coming from the area of 1000 Elm Street, University of Missouri Hitt Street Parking Garage. Shortly thereafter, I heard a second burst of multiple gun shots. I knew Officer Zach China was in the process of making contact with an individual in Hitt Street Parking Garage. I turned right, south, onto Watson Place and into the first entrance, level two, of Hitt Street Parking Garage.

As I exited my vehicle, I observed Officer Zach China, a white male wearing blue jeans and a gray t-shirt, and a white male wearing a black jacket and tan cargo shorts. It should be noted the two males were plain clothes Columbia Police Department Officers. All three officers were holding their firearms at the time of my arrival.

A fourth male, identified as Mark Adair, was laying on the ground on his right side. I observed a large amount of blood pooling in the area of the males head. I observed a black pistol lying on the ground and a blue can of "Sabre Red" Oleoresin Capsicum spray. Both of the weapons were lying within close proximity of Adair.

As I was approaching, I drew my firearm and pointed in the direction of Adair. I continued to cover Adair while the two plain clothed Columbia Police Department Officers rolled Adair onto his stomach and placed him into handcuffs. As they were rolling him over, a large knife was removed from Adair's front left pocket of his shorts.

Once he was placed into handcuffs, I holstered my firearm and began assisting officers in coordinating a perimeter.

As the scene was being secured, I observed a group of three females in a nearby red ford sport utility vehicle, displaying Missouri registration . The three females were identified as Nicole Caldwell, Katharine Loher, and Jaclyn Mock. I escorted them away from the scene and to a nearby Columbia Police Department Patrol Vehicle.

I first interviewed Loher. Loher stated she was walking south with Mock and Caldwell towards Caldwell's vehicle. She stated she observed Adair walking north towards them. She stated Adair made a brief compliment to the group of girls. She stated they thanked Adair for the compliment and then got into Caldwell's vehicle. She stated after getting into Caldwell's vehicle, she turned around and saw a heavy set male wearing a hat running with a pistol held out in front of him. She then stated a patrol car was blocking her view of Adair at the time of the shooting. She stated once the shooting began, she got lower in the vehicle.

I next interviewed Mock. Mock stated the group was walking in the parking garage, when an older male, described as Adair, was walking towards them and made a compliment about their looks. She stated she observed a patrol vehicle approaching them at that time. She stated she stepped out of Adair's way and then got into Caldwell's vehicle. She stated as she got into the vehicle she turned around while Caldwell was about to back the vehicle up and she heard gun shots.

I next interviewed Caldwell. Caldwell stated she was walking with Mock and Loher when an older male attempted to talk to them. She described the male as "not being in the best state of mind." She stated a police officer's vehicle came through the area on patrol. She stated the officer, Officer China, approached and began speaking to Adair. She stated suddenly a third male was running north through the garage with a gun in his hands. She stated she then heard gun shots and she ducked lower into her vehicle.

I left the females with the Columbia Police Department Officer and returned to the scene. I was informed the Missouri State Highway Patrol was en route in order to process the crime scene. A Columbia Police Department Officer had already begun a crime scene log in order to document all individuals on the scene. I remained on scene to assist in any way possible.

At approximately 0014 hours, I turned my patrol vehicles emergency lighting and dashboard camera off. I then went to Officer China's vehicle to do the same. It should be noted, Officer China's emergency lights were set to the rear flashing mode and therefore did not automatically initiate a recording.

At approximately 0026 hours, the Missouri State Highway Patrol Crime Scene technicians arrived and took control of the crime scene.

See additional reports submitted by the Columbia Police Department, The Missouri State Highway Patrol, and additional officers within the University of Missouri Police Department.

Wachsmuth supplement 1/assist in investigation

On 04-15-2015 at 2255 hours, I began a check of Hitt Street Garage for a wanted person, Mark Adair, who had been seen in the downtown area. While checking the upper levels of the garage, I heard Officer China advised that he had been flagged down about a subject possibly matching the description of the wanted suspect on the bottom level of Hitt Street Garage. I began coming back down and was on level 4 or 5 when I heard shots fired. I heard a group of 3 shots followed by a second group of multiple shots.

While looking for the location of the shots I met Officer Wachsmuth on level 3 of the garage. Wachsmuth had also heard the shots but could not tell the direction of them either. We then both exited the garage on the upper west entrance and observed police vehicles at the lower west entrance.

Upon my arrival, other MUPD officers and multiple Columbia Police Officers were already on scene. The suspect was already on the ground. I attempted to locate Officer China, but he was already speaking with Lt. Anliker. After several minutes Officer China was transported to University Hospital, for a hand injury, and Officer Wachsmuth accompanied him in the ambulance. I subsequently responded to Officer China's home to pick up his wife and transport her to be with her husband. Officer Wachsmuth had collected Officer China's Paca body armor vest, a tourniquet, a white under shirt, and his uniform shirt which contained business cards, a note pad, and his cell phone. I then returned to the station where all the items were placed into evidence, except for his cell phone which was given to Officer Becker to take back to Officer China.

I sealed the above items in a single evidence bag and placed them into an evidence locker.

I then took over supervising the street until approximately 0500 hours.

I activated my body worn camera at some point after hearing the shots fired.

Nothing further at this time.

Wachsmuth supplement 2/assist in investigation

On 04-15-2015 at about 2259 hours I, Officer Wachsmuth, heard Officer China call dispatch on the police radio. Officer China reported to the dispatcher he had been informed by two people that a person law enforcement officers were looking for might be in Hitt Street Garage. I drove to Hitt Street Garage and entered the garage from the East entrance.

Shortly after entering the garage, I heard what appeared to be three gun shots in succession, followed immediately by several more gunshots. I could see what appeared to be muzzle flash from the gunshots to the northwest of me. The flashes appeared to come from within the garage.

Shortly after the gunshots, an officer reported on the police radio they were involved in a shooting and the suspect was down.

I arrived at the location of the gun shots, on level two stair two of Hitt Street Garage. There were several police officers on location. I saw what appeared to be an adult male laying face down near a MUPD police car. The male was being handcuffed by other police officers. The area was secured by Columbia Police Officers.

Officer China had been injured during the incident. Officer China had an injury to a finger on his right hand.

I stayed with Officer China while he was being attended to by EMS. I rode in the ambulance to the hospital and continued to stay with Officer China until he was released from the hospital at about 0530 hours on 04-16-2015.

Anliker supplement 3/assist Officer China

On 04-16-2015 at about 2259 hours, I Lt. Anliker was assisting Columbia Police in searching for an armed robbery suspect, when I heard radio traffic from P.O. China that he was flagged down in Hitt Street Garage about a subject matching the description. As I traveling south to the west entrance to Hitt Street Garage, I could hear gun shots and see flashes of light near the entrance. As I exited my vehicle I could smell the strong odor of gun powder. As I entered Hitt Street Garage I observed a white male lying near a patrol

car and P.O. Chinae pacing near the body. I observed the middle finger on P.O. Chinae right hand to be bleeding and was partially missing. I escorted P.O. Chinae to a patrol car to provide first aid to his injury. At this time I asked P.O. Chinae what had occurred. See P.O. Chinae's body camera video for additional information.

With the assistance of the Columbia Police Department we established the crime scene perimeter. I then was released from the scene by Chief Schwandt to go to the hospital to be with P.O. Chinae. P.O. Wachsmuth and I stayed with P.O. Chinae until he was released from the hospital.

Verble supplement 4/assist in crime scene perimeter

On April 15, 2015, at approximately 2349 hours I, Officer Steven H. Verble (36), responded to the Hitt Street Garage, located at 301 Hitt Street, to provide assistance for a critical incident. I was contacted via phone by Lieutenant Buddy Anliker (7) and instructed to come in to the department and prepare myself for duty. Shortly after, I was dispatched to the Hitt Street Garage to relieve Officer Justin Patlan (24) from his position on the perimeter. During my time on the perimeter, I assured that no unauthorized personnel gained access to the crime scene.

Ludwig supplement 5/collect evidence

On April 15, 2015 at approximately 2245 hours Lt. Anliker and Sgt. Fish informed Officer Patlan and I, Officer Ludwig, that shift meeting was going to be held off due to the search for a subject involved in a robbery. We were given the directive to focus patrol around the Elm Street area as the wanted suspect was last observed downtown.

I first traveled east on Rollins Street and decided to check the East Campus area while en route to the downtown area. I was traveling west on Rosemary Street when I heard Officer Chinae inform MUPD Communications he was flagged down by some subjects who stated they observed the subject in the Hitt Street Garage. I activated my emergency lights and sirens to respond to the area. As I arrived at the east side of Hitt Street Garage I heard gunshots and observed an MUPD Patrol Vehicle on the south side of level three of the garage and heard Chinae inform dispatch shots had been fired. I immediately exited my patrol with my weapon drawn and could smell the odor of gunpowder. The vehicle I observed was Officer Wachsmuth looking for Chinae. I then heard Officer Lawzano inform communications he was located on the west side near Waugh Street. I returned to my patrol vehicle and responded to west side of the garage.

Upon arrival to the west side of the garage there were several police vehicles on scene. I observed Officer Tucker on the street and asked if he was ok. He stated he was fine and that it was Chinae. I observed Anliker at a patrol vehicle and responded to his location. Upon arrival I observed he was with Chinae who was seated in the rear of the patrol vehicle bleeding from his hand. I looked closer and observed the tip of his right middle finger appeared to be missing. Chinae was visibly shaken but considering the circumstances he was maintaining great composure. I assisted by getting bandage to apply to his wound which appeared to be caused by a gunshot.

While there with Chinae and Anliker, Chinae was explaining the situation as he could recall it. He stated he exited his patrol vehicle to contact the subject and the subject pulled a gun out with his right hand. He stated he was able to block the gun and the suspects arm and that he deflected it up past his head. He stated he thinks he was knocked to the ground and was trying to maintain control of the suspects gun. During that time he stated the suspect was reaching for his duty gun but was not able to get it. He stated the suspect then got control of his OC spray. He stated while he was in control of the suspects gun he believes that the suspect fired a couple of rounds which he believes went in to the roof of the garage. He stated the suspect hit him in the head or he hit his head on the ground but he was not sure. He stated they continued to struggle and somehow was able to get the suspect up or off of him. He stated he then drew his duty weapon with his right hand and fired a few shots. He stated he thought the subject was getting back up and going for the gun that was now on the ground so he fired a few more shots. Chinae stated that was all he could remember. Chinae then stated during the struggle he could not get to his duty weapon but did have control of the suspect's gun. Chinae said he thinks he fired two shots from the suspect's gun into the suspect.

I again asked Chinae if he used his duty weapon to which he stated he did. At that time I made the decision to seize his weapon as evidence. I explained to Chinae I was going to take his weapon and in return give him mine. My plan was to maintain control of the evidentiary weapon but allow him to have mine for a personal sense of security. I intended to immediately respond to my patrol vehicle and get my rifle so I would not be unarmed. I then realized he would not be allowed to have a weapon at the hospital then removed his entire duty belt. Officer Wachsmuth then remained with Chinae for the entirety of the night until his release from the hospital. After consulting with Anliker and Chief Schwandt it was decided that I should not examine the weapon and just maintain it evidence along with the entire duty belt and its contents. I also took possession of his Axon body camera. I then responded to the police department after ensuring Wachsmuth was in the ambulance with Chinae.

Upon arrival at the police department I immediately placed his Axon camera on the docking station to download the evidence video. After docking his camera I took photographs of his duty belt. I observed blood on several locations of the duty belt and significant

amounts on his duty weapon. I did not manipulate the weapon or its contents in any way other than carrying, moving it for photographing, and packaging it. I do not know how many rounds were fired or how many rounds were in the weapon and or magazines. It remained in the holster as it was placed by Chinaea. I was the only person to handle his duty belt and it did not leave my sight until I placed it in the evidence locker. I packaged the duty belt in a brown box. I marked the box as containing a loaded weapon and indicated on the box the direction of the muzzle and secured it with evidence tape. Additionally I submitted his duty radio as evidence as it was covered with blood. As previously stated, there were no other officers who controlled or handled Chinaea's duty belt and camera.

After processing was complete I returned to the scene to assist as needed. During that time there were other incidents that evolved at the scene resulting in an arrest and medical transport of an intoxicated subject who entered the crime scene. To my knowledge there was no contamination as a result of his entering the area.

At this time I have no further information.

My Axon and patrol vehicle cameras were activated during the incident.

In my evidence.com file there is a video with a title of "Chinaea ER" This video was taken to capture his injuries which included his damaged finger and multiple abrasions on his head.

Additional supplement reports may be filed if further information comes to mind.

Richardson supplement 6/Taser Camera video footage

Progressive Captain Scott Richardson:

On 04/15/2015 I was asked by Chief Schwandt to secure the Taser camera video footage of Officer Chinaea's assault, Hitt Street Garage video cameras that might show the suspect in this case, as well as the audio from the MUPD recorder for radio and phone traffic.

I secured all of the aforementioned items and downloaded them to separate thumb drives and released them to the Missouri State Highway Patrol evidence team.

I also secured a backup of Officer Chinaea's Taser camera video footage on my assigned work computer.

Spalding Supplement 7/Release evidence

Report: 2015-12421

Supplement: #7

Release Evidence

Sergeant Shawn Spalding

On 04/16/2015 at 0338 hours, I released the following pieces of evidence to Jason Clark of the Missouri State Highway Patrol:

- 1 Evidence bag containing PO Chinaea's right work boot
- 1 Evidence bag containing PO Chinaea's left work boot
- 1 Evidence bag containing PO Chinaea's work pants
- 1 Evidence bag containing PO Chinaea's vest, undershirt, uniform shirt, note pads, and business cards
- 1 Evidence bag containing PO Chinaea's department issued radio
- 1 Evidence box containing PO Chinaea's department issued service weapon and duty belt

I completed the department's property receipt listing all of the evidence. Trooper Clark signed the receipt. I made a copy and provided Trooper Clark with the receipt.

I scanned and imported the property receipt into this report. Another copy of the receipt was provided to the records department.

Nothing further.

Ludwig Supplement 8/Photograph Chinae injuries

While at the emergency room it was realized that Chinae's injuries had not been photographed. Not having my regular camera with me I utilized my Axon to document his injuries. The tip of his right middle finger had major damage. It appeared the bone from his first knuckle to the tip of his finger had been removed. The soft tissue was still present and was later stitched over. After stitching and cleaning it was discovered there was a moderate cut on the webbing between his right index finger and thumb. It did not require stitches. He suffered minor scratches to his left forearm and the left side of the top of his head. On the rear of his head you could see two bumps and red marks which due to lighting could not be seen on the Axon video. There were also red marks on his face and neck area.

It is possible that he did suffer other minor injuries during the altercation but due to other more serious injuries they were not yet known to Chinae.

All of the video has been downloaded to my evidence.com account.

Chinae Supplement 9

On 04/15/2015, at approximately 2259 hours, I, Officer Zachary Chinae #45, was on patrol on the University of Missouri Campus, near the downtown area. Sgt. Fish advised by radio that, at the direction of Chief Schwandt second shift officers would be assisting city of Columbia police department in their search for Mark Adair. Prior to this information, I had been made aware of Adair through a MIAC alert during shift briefing as well as CPD's radio traffic concerning Adair's involvement in multiple crimes throughout the city of Columbia on 04/15/2015. Through CPD's radio traffic I learned that Adair was known to be wearing a pair of tan cargo shorts and a light blue polo shirt. I was also aware Adair was in possession of a firearm which was used in the commission of crimes earlier in the day.

While searching for Adair I was flagged down by two individuals, later identified as Officer Timothy Giger and a fellow Columbia Police Officer. Giger advised an individual matching the description of Adair was observed in the Hitt Street Garage. While speaking with Giger I observed him to be dressed in civilian clothes and was not aware of his affiliation with CPD. During my conversation with Giger I activated my body worn camera.

I observed the individual identified by Giger, later identified as Adair, to be walking away from me on the up-ramp from level one to level two of the Hitt Street Garage. I observed Adair to be wearing a pair of blue cargo shorts and a long sleeved jacket; however, I was unable to see Adair's face at the time. I notified dispatch by radio of my location and that I would be checking on a subject in Hitt Street Garage. As I traveled up the up-ramp I observed Adair cut through the parked vehicles and begin to walk toward the west entryway on the second level. I turned against traffic and drove toward Adair, before he exited the garage.

I activated the level one lights on my patrol vehicle and positioned the vehicle to be partially between Adair and the exit. While driving near Adair, I was able to see his face and observed him to appear to match the description of Adair. I also observed two females in the area as I attempted to make contact with Adair. By the time I exited my patrol vehicle Adair had made his way around to the driver's side front of my vehicle. I informed Adair I needed to speak with him as he walked toward me. I observed Adair produce a black handgun in his right hand which was pointed at me. I lunged forward and attempted to gain control of the firearm from Adair. During the struggle over the firearm I was knocked onto my back and my head struck the ground while Adair was on top of me. While attempting to gain control of Adair's firearm, I managed to bring the firearm to his left side. During the struggle I began to feel Adair grabbing at the left side of my duty belt. When I looked to my left I observed Adair holding my OC in his right hand, which he had taken off my belt. I raised my left arm to block the spray of OC while at the same time I gained positive control of Adair's firearm. Not knowing the condition or amount of ammunition in Adair's firearm I attempted to draw my own firearm with my right hand but was unable to do so due to Adair's position of top of me. After being unable to draw my firearm I retrieved Adair's firearm from the ground nearby and I was able to point Adair's firearm at the area of his left ribs and repeatedly pulled the trigger. While pulling the trigger with Adair's firearm I heard a series of gunshots.

After the series of gunshots I felt the resistance from Adair on top of me lessen at which point I was able to draw my firearm with my right hand and fire two shots at Adair in the area of his left side. After firing those shots I was able to free myself from under Adair and continued to fire a series of shots as I backed away, while Adair was near his firearm, until I observed Adair was no longer making an attempt to retrieve his firearm.

At that point in time, I observed Officer Lawzano arrive on scene. At some point after Officer Lawzano's arrival I became aware that the two plain clothed CPD officers who had spoken to me at the entry to the garage were present on scene. Lt. Anliker arrived on scene and escorted me away from Adair toward an MUPD patrol vehicle where he requested a brief statement of the incident and assisted with bandaging the middle finger of my right hand which appeared to have been partially amputated. Officer Ludwig and Lt. Anliker assisted in retrieving my firearm, duty gear, and body worn camera from me for evidentiary purposes. I was transported by EMS to the University of Missouri Hospital for injuries to my right hand and the back of my head.

Missouri State Highway Patrol
Supplemental Report
Incident # 150216523

SUPPLEMENT #22 – CERTIFIED FIREARMS LAB REPORT
DATE OF REPORT: 04/30/2015

1. On April 30, 2015, I received a Certified Firearms Lab report back from the Missouri State Highway Patrol, Crime Laboratory Division, regarding the shooting of Mark W. Adair. A copy of the lab report has been submitted as an attachment to this investigative file.

2. This case remains active.

Jason P. Clark, Sergeant
Division of Drug and Crime Control

JPC:ear

Missouri State Highway Patrol
 Crime Laboratory Division
 An ASCLD/LAB Accredited Laboratory

Q Lab Firearms
 Certified Report

Agency:	Troop F DDCC	Lab Number:	0440557
Incident:	Homicide	Agency Case #:	150216523
Investigating Officer:	JASON CLARK	Date of Incident:	04/16/2015
Subjects Involved:	Adair, Mark W - Suspect	County of Incident:	Boone
	Giger, Timothy J - Person in Control of Property		
	Chinea, Zachary A - Victim		

Related Report #: DDCC Type: Investigator

Item:

2.0425.002 - A 9mm Smith and Wesson pistol, serial number MRF6640.
 2.0425.003 - Three cartridge magazines.
 2.0425.004 - Forty-three cartridges.

3.0425.005 - A .40 S&W Walther pistol, serial number AG9089.
 3.0425.006 - A cartridge magazine.
 3.0425.007 - Five cartridges.

Firearm Evidence Examination Results:

The pistols, using their respective magazines, were test fired and test standards were obtained from each. The forty-eight cartridges appeared to be consistent with functional ammunition. Two of the cartridges were used in the test firings.

What appeared to be blood, was on the surface of the Smith and Wesson pistol. It was swabbed for possible future DNA examinations.

This report may contain opinions and interpretations of the undersigned. I, the undersigned, do hereby certify that the above and foregoing is a true and accurate summation of the results of analyses conducted.

INCIDENT NARRATIVE

ON 04/15/2015, AT APPROXIMATELY 2300 HOURS, A SHOTS FIRED WAS REPORTED AT 301 HITT STREET.

NARRATIVE

#894590

On 04/15/2015, at approximately 2300 hours, I responded to 301 Hitt Street, Hitt Street Parking Garage, in response to a shots fired.

Upon arrival, I began to secure the scene with crime scene tape and began a Crime Scene Security Log. Officer Kyle Gilliam and I maintained the log until the scene was released and cleared at 0415 hours.

The Crime Scene Security Log was submitted to the Evidence Unit at the Columbia Police Department.

Nothing further.

NARRATIVE

#894192

On 04/15/2015 at approximately 11:01 PM, I was in the area of Broadway and Sixth when I heard officers break traffic on my police radio stating shots had been fired and someone was down and the location was 301 Hitt Street.
=====

COLUMBIA POLICE DEPARTMENT

FOLLOWUP REPORT
2015-004037/1

I traveled in my patrol vehicle to that location. Upon my arrival, I observed Detective Tim Giger and Detective Kevin Kasper walking down the roadway towards me. Upon exiting my vehicle I asked Detective Giger if he was alright and he stated he had just been involved with an officer involved shooting.

I had Detective Giger get into the passenger side of my patrol vehicle and I went to the driver's side and entered and asked Detective Giger if he was okay and he stated he was good. I then had Detective Kasper stay with Detective Giger while I went to make contact with Assistant Chief John Gordon who was also at the scene.

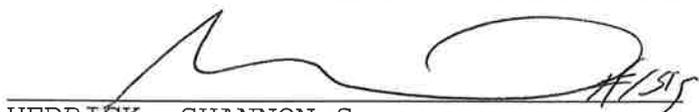

I advised Assistant Chief Gordon that I had made contact with Detective Giger and he was sitting securely in my patrol vehicle with Detective Kasper. I was advised by Assistant Chief Gordon to take Detective Giger to the Columbia Police Department to remove him from the scene. I then returned to my patrol vehicle at which time I drove Detective Giger to the Columbia Police Department and escorted him inside the Columbia Police Department. Once inside the secured facility, I asked Detective Giger for his firearm at which time he did provide me his firearm which was cleared and the live round which was in the chamber I placed in the top of the magazine as number one (#1) in the magazine.

I then took the firearm and the magazine to the gun lockers outside Sergeant's Office and placed it in the gun locker and locked it and kept the key on my person.

A short time later, I made contact with Lieutenant Ethan Ahern of the Missouri State Highway Patrol Division of Drug and Crime Control and around 3:00am I relieved custody of Detective Giger's pistol and magazine to Lieutenant Ahern and another Investigator from the Missouri State Highway Patrol Division of Drug and Crime Control. I had no further evidentiary evidence to turn over to them.

Nothing further.

NARRATIVE

#894251

On 4/15/15, at approximately 2301 hrs, I responded from Broadway and Eighth to the sounds of shots being fired. I then heard on the radio, Officer Clint Sinclair, calling out the location with one down (gunshot wound).

I immediately responded to the Hitt Street garage, and temporarily blocked entrance to the north side of the garage, until I was called off due to a separate shooting. After I cleared from the unrelated shooting, I responded back to the area of the Hitt Street garage, while officers were still onscene investigating. I observed several people jogging towards the garage from Ninth St. I drove my patrol vehicle up Woodson Way, towards the garage, to ensure that the crowd was not entering the scene. I noticed at that time a trooper was blocking entrance to the garage directly south of the crime scene, but I did not observe an officer outside of the inner crime scene for security (Officer Gilliam was doing the security log inside the first level crime scene). Due to this, I exited my patrol vehicle and remained inside the second level of the crime scene tape ensuring that no observers or media made it into the first level (main) crime scene area.

While I was on scene security, no civilians entered the first level crime scene, although a couple civilians were stopped from continuing into the garage. I left scene security at approximately 0015 hrs and responded to the Columbia Police Department and printed Crime Scene Log sheets for Officer Kyle Gilliam. Before leaving, I advised Officer Clint Sinclair of my departure. Officer Sinclair took over scene security.

I responded back to the scene to deliver the requested papers, and then ultimately cleared from the call. During my entire time onscene, I did not enter the first level of the crime scene tape; I remained inside the second level.

Nothing further.

On 04/15/15, at approximately 2301 hours, I responded to 301 Hitt Street, regarding a check subject call.

Upon arrival, I saw the scene had been secured, and was directed by Assistant Chief John Gordon to begin establishing a perimeter around the scene with crime scene tape. After assisting in establishing a perimeter of the scene, I responded to the parking garage.

I met with Officer Clint Sinclair who had already initiated a Crime Scene Log for the incident. At approximately 2333 hours, I took over for Officer Sinclair in maintaining the Log.

I maintained the Log until approximately 0307 hours, at which time I was relieved by another Columbia Police Officer.

Officer Sinclair maintained possession of the Log upon my clearing the call. For further regarding the Crime Scene Log, please see his supplemental report.

This concludes my involvement at the scene of the incident.

Should further information be needed, supplemental reports will be submitted.

Nothing further at this time.

NARRATIVE

#894642

On 04/15/2015, Sgt. Matt Stephens and I responded to the Hitt Street Parking garage at 301 Hitt St., Columbia, MO in reference to this incident.

Upon doing so, we learned Detective T. Giger had been one of the officers who had been involved in the shooting of the suspect in this case, Mark Adair. Upon our arrival Detective Giger had already been escorted to the Police Department.

Sgt. Stephens and I spoke briefly with Detective Sedgwick on scene, who had been with Detective Giger when the incident occurred. Detective Sedgwick stated he had not fired his weapon during the incident. Sgt. M. Stephens escorted Detective Neal Sedgwick back to the Police Department.

Upon my arrival to the Police Department, I obtained and examined the firearm of Detective Sedgwick, a Smith and Wesson M&P 9 Shield, serial number HPM0570.

The firearm had a round chambered, and had seven (7) rounds in the magazine, which has a capacity of eight (8) rounds.

Detective Alan Mitchell took photographs of Detective Sedgwick's firearm and the ammunition.

The firearm was returned to Detective Sedgwick a short time later after I was advised the Investigators from the Missouri State Highway Patrol Division of Drug and Crime Control stated they would not need it for the purposes of their investigation.

NARRATIVE

#895532

This incident was captured on my body worn camera. The video was entered into Evidence.

ON 4/15/15 at approximately 2147 hours, Detective Kevin Kasper and I were operating a marked patrol vehicle in the downtown area searching for a wanted subject, Mark Adair. As Kasper and I were in the area of Ninth Street, we heard noises we recognized as gun shots coming from the south. Kasper and I soon after, heard radio traffic of officers requesting emergency assistance in reference to the shots fired incident.

Kasper and I arrived at the Hitt Street Garage where we observed several officers on-scene. I approached a subject who appeared to have been struck by gunfire, who was being covered at gunpoint by Detective Neal Sedgwick. I conveyed to Sedgwick that I would handcuff the subject as Sedgwick covered him. Sedgwick then assisted me in handcuffing the subject. This subject was later identified as Mark Adair.

I maintained scene security until Assistant Chief John Gordon arrived on-scene and ordered me to clear from the scene.

No further.
