	Total: 87

Boone County COVID-19 Cases by Mode of Transmission

Situation Summary:

On March 16, 2020 the City of Columbia declared a state of emergency within the city to respond to COVID-19. The resolution includes calling for proactive measures to protect the public health, safety and welfare; expressing support for and calling upon City Manager John Glascock and Public Health and Human Services Director Stephanie Browning to enact regulations to protect the public health, safety and welfare.

There are 87 confirmed cases in Boone County, a patient passed away on 3/18/2020, and 79 have recovered from the COVID 19 illness.

A total 5,283 confirmed cases in Missouri of individuals who have been diagnosed with COVID 19, 165 of those cases have died. A list of cases reported by county can be found The Missouri Department of Health and Senior Services operates a website reporting reported cases of COVID 19 in Missouri at:

<https://health.mo.gov/living/healthcondiseases/communicable/novel-coronavirus/results.php>

A “Stay at Home” Public Health Order went into effect for City of Columbia and all of Boone County beginning at 8 AM on 3/25/2020.

Cepheid Received Emergency Use Authorization from FDA for Rapid SARS-CoV-2 Test on 3/21/2022, a 45 minutes test for the virus that causes COVID-19.

Boone County Office of Emergency Management opened a virtual EOC on 3/17/2020 to facilitate the coordination of efforts and resources to keep Boone County safe during COVID-19 response efforts.

The City of Columbia Neighborhood Services, in their role as Volunteer Coordination of the Boone Emergency Response Plan, has activated a COVID 19 Volunteer webpage, it can be found here:

<https://www.como.gov/volunteer/covid/>

The City of Columbia has a dedicated webpage that provides a summary of City of Columbia services as they related to COVID-19 and it can be found here: <https://www.como.gov/coronavirus/>

As ESF-6 lead, City of Columbia Division of Human Services has activated a COVID-19 Get Help webpage website to list key human services resources needed during the pandemic: COVID-19 Get Help (<https://www.como.gov/health/gethelp-coronavirus/>).

As ESF-6 lead, City of Columbia Division of Human Services has organized five local funders (City, County, United Way, Community Foundation, and VU Foundation) in a collaborative called ComoHelps (<http://comohelps.org>). Through this collaborative we have consolidated financial donations for the COVID-19 response. Financial contributions are being routed to the Heart of Missouri United Way and the Community Foundation of Central

Missouri. Nonprofit and governmental volunteer needs are posted, along with the opportunity for community members to sign up as unaffiliated volunteers for assignment as needed.

ComoHelps also developed a single, joint application for nonprofits to submit requests for funding. This expedites access to support for nonprofits and allows us to coordinate funding used in response to the COVID-19 pandemic. The ComoHelps collaborative meets daily to review and prioritize requests and to allocate funding. The current focus is on funding services being provided in response to COVID-19. Requests for nonprofit

sustainability are being referred to federal CARES Act programs and tabled for later consideration. Because this funding collaborative is so unique, ComoHelps have received grants from state and national foundations.

Missouri Governor Parson declared a State Emergency on March 13, 2020 to make state resources available to local jurisdictions and activate certain authorities. On March 21, 2020 he issued an updated order for social distancing. It can be found here: <https://governor.mo.gov/press-releases/archive/governor-parson-directs-dhss-director-require-social-distancing-statewide>

Governor Parson issued a statewide stay at home order to begin on 4/6/2020. The stay at home order can be found here: <https://governor.mo.gov/priorities/stay-home-order>

On March 16 Governor Parson extended the stay at home order until May 3.

The state of Missouri has the following criteria stated for testing an individual to have a specimen tested at the State Health Lab:

Interim Missouri COVID-19 Person Under Investigation (PUI) Definition
Updated March 23, 2020

Risk Groups to be Approved for COVID-19 Testing by DHSS		
Risk Group	Clinical Features	Definitions and Further Information
Symptomatic close contacts to a suspect COVID-19 patient with pending laboratory testing or laboratory-confirmed COVID-19 patient	Fever ¹ or signs/symptoms of lower respiratory illness (e.g. cough or shortness of breath)	Close contact is defined as— a) being within approximately 6 feet (2 meters) of a COVID-19 case for a prolonged period of time; close contact can occur while caring for, living with, visiting, or sharing a healthcare waiting area or room with a COVID-19 case — or — b) having direct contact with infectious secretions of a COVID-19 case (e.g., being coughed on) If such contact occurs while not wearing recommended personal protective equipment or PPE (e.g., gowns, gloves, NIOSH-certified disposable N95 respirator, eye protection), criteria for PUI consideration are met.
Symptomatic residents of congregate living facilities whose residents are at higher risk for poor outcomes	Fever ¹ and signs/symptoms of a lower respiratory illness (e.g., cough or shortness of breath)	Those at higher risk for poor outcomes can include older adults and individuals with chronic medical conditions and/or an immunocompromised state (e.g., diabetes, heart disease, receiving immunosuppressive medications, chronic lung disease, chronic kidney disease).
Symptomatic hospitalized patients who have signs and symptoms compatible with COVID-19	Fever ¹ and signs/symptoms of a lower respiratory illness (e.g., cough or shortness of breath)	Testing for these individuals should be used to inform decisions regarding infection control.

¹Fever may be subjective or confirmed

Most up to date can be found at: <https://health.mo.gov/living/healthcondiseases/communicable/novel-coronavirus-lpha/pdf/mo-pui-guidance.pdf>

MoDHSS hotline staffed by medical professionals: 877-435-8411

Providers can have COVID-19 lab tests performed by private labs, any positive case is reported to the county of resident for the individual whose specimen tests positive, negative results do not have to be reported by private labs.
