

TREE BOARD

YOUR LOCAL URBAN FOREST

Trees are one of the greatest assets a city can have. They play a major role in cleaning our air and water, reducing electricity bills by shading our buildings, and providing natural beauty. Just like any asset, trees require some basic maintenance and consideration.

YOUR TREE BOARD

Did you know Columbia has a Tree Board that meets regularly? Its goal is to support the development and maintenance of the community's urban forest, promoting strong and healthy trees for today and the future.

OUR MISSION

The Tree Board advises City Council on urban forest resources and the Columbia Urban Forest Master Plan, provides tree-related information to the general public, and is a conduit for citizens to reach City Council regarding tree issues.

FOR MORE INFORMATION ON YOUR CITY'S URBAN FOREST, PLEASE VISIT:

www.cmo.gov/treeboard

The Tree Board meets the third Wednesday of each month at 5 PM in City Hall. Meetings are open to the public.

MISSOURI DEPARTMENT OF CONSERVATION COMMUNITY FORESTRY GRANT

A portion of the funding for these informational brochures was made available through the Missouri Department of Conservation Community Forestry Grant. Thank you to the Missouri Department of Conservation for their continued support of our tree program!
