Columbia City Hall
701 E. Broadway
Columbia, MO 65205

Columbia's central area is a unique and diverse collection of neighborhoods surrounding Downtown and the Mizzou campus. The City seeks to define the future of development within their boundaries and create livable neighborhoods with distinctive and desirable community character.

Please join the City of Columbia and its planning consultant to review the issues and opportunities identified at our meeting on December 14th and provide your input on the draft Community Vision and Goals for the project! Your input will be instrumental in developing a new plan and development guidelines to help guide and fulfill the future of this area.

We need to hear from you! Please join us on March 6th and make your voice heard!
